WHAT IS THIS PRODUCT?

Type: Organisme de Placement Collectif en Valeurs Mobilières (OPCVM), Société d'Investissement à Capital Variable (SICAV)

Term: The UCI's term is 99 years from 25/07/2001, except in the event that the Fund is dissolved before the end of the term or extended pursuant to these regulations.

Objectives:

The investment objective is to achieve over the recommended investment horizon of 5 years a return (net of charges) above the following benchmark: Eurostoxx. The benchmark is expressed in EUR. Nets dividends or coupons are reinvested. Through an active policy of socially responsible investment based on financial, corporate, social, environmental and governance criteria.

The SICAV will be 90% invested in and exposed to Eurozone equities. To support his investment policy, the manager has opted for a "best in class" positioning.

The UCI promotes environmental and/or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088, the "SFDR". The management team relies on its own internal analysis of ESG (environmental, social and governance) criteria as well as on the services of our ESG partner.

The stock selection process consists of two distinct, simultaneous and necessary phases:

A. **Extra-financial filter.** The SICAV is managed in accordance with the principles of the SRI label defined by the French Ministry of the Economy and Finance. For a stock to be eligible for the SICAV's portfolio, it must meet three conditions.

Condition 1: have a score at least equal to "=" in Human Resources

The quality of general working conditions, fostering of employer-employee relations, job enhancement and skills training are the main factors examined.

Condition 2: obtain a weighted average score of at least "="

Lazard Frères Gestion requires each of the five areas of extra-financial analysis to be weighted according to their importance:

- Human resources (40%), Environment (30%), Customer-supplier relations (10%), Human rights (10%), Community involvement (10%)

Condition 3: obtain an internal governance score of more than 2 out of 5

The methodology for covering issuers through ESG analysis is detailed in the prospectus. The analyst-managers ensure that an exclusion rate of 20% or more of the lowest-rated securities in the UCI's investment universe is maintained. For the sake of integrity and objectivity, the scores used to apply this exclusion rate are provided by an external rating agency.

B. **Financial filter.** Financial analysis focuses on three elements: profitability, growth and valuation.

- Economic profitability is the ability of a company to create value over the long-term. It is measured by the return on capital employed.
- Growth is the ability of a company to increase capital employed while maintaining a level of profitability at least equal to what it has been historically.
- Valuation is based on a multi-criteria approach (historical multiples, DCF, comparable multiples).

Further information on the investment strategy can be found in the UCI's prospectus.

The SICAV may hold up to a maximum of 10% of its net assets in French or foreign UCITS and/or French or EU-based alternative investment funds (AIFs) that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code monétaire et financier), and/or foreign investment funds that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code, provided these funds themselves invest less than 10% of their assets in other UCIs. All the UCIs may be managed by Lazard Frères Gestion SAS.

The SICAV may use, within a limit of 10% of its net assets, equity, equity index and currency futures, equity, equity index and currency options, equity and currency swaps and currency forwards, traded on regulated, organised and/or over-the-counter markets, to hedge the portfolio against equity and currency risk. Hedging will be discretionary.

WHAT ARE THE RISKS AND WHAT'S IN IT FOR ME?

Risk indicator:

The risk indicator assumes that you keep the product for 5 years. The actual risk may be very different if you opt to exit before the end of the recommended holding period, and you may get less in return.

Other sizeable risks not taken into account in the indicator:

Recommended holding period:
5 years

- Risks associated with derivatives

The synthetic risk indicator is used to assess the risk level of this product compared with others. It indicates the probability that this product will incur losses in the event of market movements or if we are unable to pay you. We have classified this product in the risk class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity LAZARD FRERES GESTION SAS to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios:

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you get from this product depends on future market performance. Future market developments are uncertain and cannot be accurately predicted.

The unfavourable, intermediate and favourable scenarios presented represent examples using best and worst case performance, as well as the average performance of the product over the past 10 years. The scenarios presented represent examples based on past performance and certain assumptions. Markets could evolve very differently in the future.

Recommended holding period: 5 years Investment example: 10,000 €			
Scenarios		If you exit after 1 year	If you exit after 5 years

WHAT HAPPENS IF LAZARD FRERES GESTION SAS IS UNABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of default by the latter, the assets of the product held by the custodian will not be affected. In the event of default by the custodian, the risk of financial loss to the product is mitigated by the legal segregation of the assets of the custodian from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

The person who sells you this product or who gives you advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and the performance of the product. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We have assumed: - that in the first year you would get back the amount you invested (annual return of 0.0%) - that for the remaining holding periods, the product evolves as indicated in the intermediate scenario - that 10,000 EUR are invested

	If you exit after 1 year	If you exit after 5 years
Total costs	584 €	1,648 €
Impact of annual costs (*)	5.9%	2.9% every year

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the

recommended holding period, your average return per year is expected to be 7.6% before deduction of costs and 4.7% after that deduction.

Breakdown of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	4.00% of the amount invested. This is the maximum amount you could be required to pay. The person selling you the product will inform you of the actual costs.	Up to 400 €
Exit costs	We do not charge exit costs.	0 €
Recurring costs incurred each year		
Management fees and other administrative and operating costs	1.13% of the value of your investment per year. This estimate is based on actual costs over the past year.	108 €
Transaction costs	0.79% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	76 €
Incidental costs incurred under specific conditions		
Performance-related fees	There are no performance fees for this product.	0 €

HOW LONG DO I HAVE TO HOLD IT AND CAN I WITHDRAW MONEY EARLY?

Recommended holding period: 5 years

This product does not have a minimum holding period requirement. The recommended holding period (5 years) has been calculated to be consistent with the product's investment objective.

You may withdraw your investment before the end of the recommended holding period, without any charges or penalties under the conditions set out in the "Right of redemption" section. The risk profile of the product may be very different if you opt to exit before the end of the recommended holding period.
