Key Information Document production date: 15/12/2023

Warning: You are about to purchase a Product that is not simple and may be difficult to understand.

#### What is this Product?

### Type

The Product is a sub-fund of a French SICAV mutual fund, which is UCITS governed by European Directive 2009/65/EC.

#### Term

This Key Information Document describes a sub-fund of the French SICAV mutual fund, EdR SICAV. The prospectus of the EdR SICAV mutual fund, as well as the relevant semi-annual reports, are established for all of the sub-funds in the SICAV fund. The term of the Product is 99 years. This Product has no maturity date. The Management Company reserves the right to dissolve the Product unilaterally. The Product may also be dissolved in the event of a merger, a total redemption of shares, or if the Product's net assets fall below than the regulatory minimum amount. The assets and liabilities of the various sub-funds are segregated.

As such, any shares you hold in this sub-fund may not be exchanged for shares in another sub-fund in the EdR SICAV mutual fund.

### Objectives

The Product aims to outperform its benchmark index, the SBF 120 NR (Net Return, i.e. net dividends reinvested), over a recommended investment horizon of more than 5 years by investing in predominantly French companies whose financial, non-financial and valuation characteristics indicate that they are likely to perform strongly. These companies will be selected on the basis of an analysis that combines financial profitability and compliance with non-financial criteria. The Product is managed actively, which means that the Manager makes investment decisions in line with the Product's investment policy with a view to achieving the Product's objectives. This active-management process entails taking decisions regarding the selection of assets, regional allocations, sectoral views and overall market exposure. The Product's investment universe consists of all French stocks with a market capitalisation of more than EUR 300 million that have been subjected to a non-financial analysis.

Benchmark index: SBF 120 NR (Net Return, i.e. net dividends reinvested).

Investment policy: The Product implements an active stock-picking management strategy, selecting listed stocks from an investment scope comprising mainly French securities. At least 75% of the assets will be invested in European equities and other PEA-eligible securities, with at least 65% in eurozone equities and a maximum of 10% outside the eurozone. Equities from outside of France will not exceed 25% of the net assets.

The Product's management philosophy is to invest in companies whose strategic and operational choices are guided by overall performance – economic and financial, environmental, social-societal and governance-related – gaining the respect and trust of their internal and external stakeholders. Securities will be selected based on the combined used of financial and non-financial criteria.

The Product invests in an investment universe comprising the shares of companies whose capitalisation is primarily greater than EUR 300 million. All the stocks that form the portfolio's investment universe are subjected to a non-financial analysis.

The analysis of financial criteria identifies securities with significant growth prospects, which offer a reasonable return or which are significantly undervalued in the view of the management team.

The analysis of non-financial criteria is designed to meet the requirements of Socially Responsible Investment by selecting securities based on the Management Company's own ESG rating grid, which classifies

recurrities according to the criteria listed below:

- Environment: energy consumption, greenhouse gas emissions, water, waste, pollution, environmental management strategy, green impact;

- Social: quality of employment, human resources management, social impact, health and safety;

- Governance: structure of governance bodies, remuneration policy, audit and internal control, shareholders' interest.

The SRI ratings model was formulated:

- using a Best-in-Universe approach, i.e. by favouring the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe approach, i.e. by favouring the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe approach, i.e. by favouring the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe approach, i.e. by favouring the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe approach, i.e. by favouring the best-performing companies regardless of their financial rating, size or sector,

- using a Best-in-Universe approach in the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe approach in the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe approach in the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe approach in the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe approach in the best-performing companies regardless of their financial rating, size or sector,
- using a Best-in-Universe rating rating

section in question, which puts a different emphasis on each of the three pillars.

To determine if the company analysed embodies the characteristics of a responsible and sustainable company as defined by the management company, the latter carries out research to produce an internal ESG rating on a scale of 7, ranging from AAA to CCC. This rating is an aggregation of the results scored against the various ESG criteria in the rating grid determined by the analysts.

In the absence of an internal rating, the Manager relies on an ESG rating supplied by the Management Company's external ratings provider. The ratings methodology used by the Management are represented in the rating sprovider may not be identical to the approach used to calculate proprietary ratings. The Manager predominantly selects stocks that have a proprietary rating for the portfolio. In general, the Manager is responsible for selecting securities that comply with the non-financial criteria that are most suited to the Management Company's approach. At least 90% of portfolio companies receive either an internal ESG rating or a rating supplied by an external rating agency.

Once this process has been applied the investment universe will be reduced by 20% by eliminating the process has been applied the investment universe will be reduced by 20% by eliminating the process has been applied the investment universe will be reduced by 20% by eliminating the process has been applied the process.

Once this process has been applied, the investment universe will be reduced by 20% by eliminating the poorer non-financial ratings.

The Product may also invest in the following securities:

- The Product may use financial contracts traded on French organised markets, regulated markets (futures, listed options), or over-the-counter markets (options, swaps, currency futures etc.), for the purposes of hedging and/or exposure, without overexposure, up to a limit of 100% of its assets. In this respect, the Product may take a position with a view to hedging the portfolio against certain risks (equity risk, currency

The portfolio's overall exposure to debt securities and money-market instruments may represent up to 25% of the portfolio for cash management purposes.

- The Product may also invest between 0% and 25% of the net assets in euro-denominated French convertible bonds traded on a regulated European market and, within this same limit, up to 10% of the net assets in foreign convertible bonds.

All these stocks will be selected using the steps for identifying stocks that comply with the previously mentioned non-financial criteria.

Furthermore, the Product may invest up to 10% of its net assets in UCI units or shares. The selected UCIs will not be subject to a non-financial analysis. The Product will not use Total Return Swaps. This Product is eligible for the French PEA equity savings plan.

Allocation of income: Accumulation

Allocation of net realised gains: Accumulation

## Intended retail investors

A EUR shares: All subscribers, provided they are willing to accept the risk of capital loss.

This Product may not be purchased by or benefit, either directly or indirectly, natural or legal persons residing or domiciled in the United States, citizens of the United States, or United States Persons.

### Practical information

Custodian: Edmond de Rothschild (France)

Custodian: Edmond de Rothschild (France)
You can request the redemption of your shares on any day of the week, except on public holidays and on the days on which French markets are closed (see the official Euronext Paris S.A. calendar), for orders received by the clearing house before 12:30 pm on the day before the net-asset valuation day.
The Product's prospectus, its latest annual report, and any subsequent interim reports (in French, and in English, if required) will be provided free of charge upon written request to Edmond de Rothschild Asset Management (France) 47, rue du Faubourg Saint-Honoré - 75401 Paris Cedex 08 - France; telephone: +33 140 172 525; email: contact-am-fr@edr.com.
Share prices and, where necessary, information on other share classes, as well as information on the Product's net asset value, performance scenarios and past performance, can be found on www.edmond-de-rothschild.com.

### What are the risks and what could I get in return?

### Risk Indicator

I ower risk Higher risk

The summary risk indicator assumes that you will hold the Product until the maturity date of the recommended holding period (5 years). The actual risk can vary significantly if you opt to exit before the maturity date, and you may

can vary significantly if you opt to extraording the materity dute, and you can get back less.

The summary risk indicator is provided as a guide to the level of risk of this Product compared to other products. It shows how likely it is that this Product will incur losses due to market fluctuations, or our inability to pay

We have assigned this Product a risk rating of 4 out of 7, which means that it is a medium-risk product. In other words, the potential losses on the Product's future performance are in the medium range and, if market conditions were to deteriorate, our ability to pay you may be affected.

Moreover, you will also be exposed to the following risks (not shown in the summary risk indicator):

<u>Credit risk</u>: The risk that an issuer of debt or money market securities cannot meet its obligations, or that its credit rating is downgraded. It also refers to the risk that an issuer defaults on repayment at

Liquidity risk: The risk arising from low levels of liquidity in underlying markets, such that they are more sensitive to significant buying/selling trends.

Derivative risk: The use of derivatives may result in a more significant decline in the Product's net asset value than that in the markets where investments are made

Counterparty risk: This is the risk that a market participant defaults, preventing them from honouring their commitments in respect of your portfolio.

The occurrence of any of these risks may negatively impact the net asset value. As this Product does not include any protection against future market performance, you could end up losing some or all of your investment.

Pay particular attention to currency risk. If an investment Product is denominated in a currency other than the official currency of the State in which the Product is marketed, the final return will depend on the rate of exchange between the two currencies. This risk is not taken into account in the indicator

## Performance Scenarios

The figures shown include all the costs in connection with the Product itself, but may not include all of the costs that you may be required to pay your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Product depends on future market performance. Future market trends are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the Product's and/or the relevant the benchmark index's worst, average, and best performance over the last 10 years.

Markets could trend very differently in the future. The stress scenario shows what you might get back in extreme market conditions.

With an investment of FLIR 10 000

Recommended holding period: 5 years		If you exit after 1 year	If you exit after 5 years (i.e. the recommended holding period)		
Scenarios			1		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.				
Stress	What you could get back after costs are deducted	EUR 1,350	EUR 1,540		
	Average annual return	-86.5%	-31.2%		
Unfavourable	What you could get back after costs are deducted	EUR 7,660	EUR 7,510		
	Average annual return	-23.4%	-5.6%		
Moderate	What you could get back after costs are deducted	EUR 10,040	EUR 10,760		
	Average annual return	0.4%	1.5%		
Favourable	What you could get back after costs are deducted	EUR 13,960	EUR 12,980		
	Average annual return	39.6%	5.4%		

This table shows different scenarios illustrating the amounts that you could get back over the recommended holding period of 5 years, assuming you invest EUR 10,000. Unfavourable scenario: This scenario occurred for an investment made between September 2018 and September 2023. Moderate scenario: This scenario occurred for an investment made between February 2016 and February 2021. Favourable scenario: This scenario occurred for an investment made between September 2013 and August 2018.

## What happens if Edmond de Rothschild Asset Management (France) is unable to pay out?

The Product is a separate co-ownership comprising financial instruments and deposits held by the portfolio management company. Should the latter become insolvent, the Product's assets that are held by the custodian will not be affected. Should the custodian become insolvent, the risk that the Product incurs financial losses will be mitigated due to the legal requirement for the custodian's assets to be held separately from those of the Product

Investments in the Product are not themselves hedged or guaranteed by a national compensation mechanism. The resale of the Product's shares, and the Product's capital and income, are not guaranteed by the Product manufacturer.

#### How much will this investment cost me?

The person who is selling you this Product, or advising you about this Product, may charge you additional costs. If so, this person will provide you with information about these costs and how they will affect your

#### Costs over time

The tables show the amounts that are deducted from your investment to cover different types of costs. These amounts depend on how much you invest, and on how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods We have assumed that:

- In the first year, you would get back the amount you invested (0% annual return). For the other holding periods, the Product is expected to perform as shown in the moderate scenario.
- The investment is EUR 10,000.

With an investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years (i.e. the recommended holding period)
Total costs	EUR 548	EUR 1,703
Annual impact of costs *	5.5%	3.2%

r) This illustrates the extent to which the costs will reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is projected to be 4.63% before costs, and 1.48% after costs

### Composition of costs

With an investment of EUR 10,000 and an annual cost if you exit after 1 year.

One-off costs upon entry or exit	lf you exit after 1 year				
Entry costs	Up to 3.00% of the amount you pay upon subscribing to the Product.	EUR 300			
Exit costs	We do not charge an exit fee for this Product, but the person selling you the Product may do so.	EUR 0			
Ongoing costs (deducted each year)					
Management fees and other administrative or operating costs	2.05% of the value of your investment per year. This percentage is determined based on the actual costs incurred in the previous year.	EUR 205			
Transaction costs	0.43% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the Product's underlying investments. The actual amount will vary depending on how much we buy and sell.	EUR 43			
Incidental costs deducted under specific conditions					
Performance fees (and carried interest)	0.00%, performance fee deducted in respect of the previous financial year. Description: 15% per year of the outperformance compared with the benchmark, the SBF 120 Index with net dividends reinvested. If a share in the Product outperforms its benchmark index – and even if the share's performance is negative – a performance fee may be deducted during the reference period.	EUR 0			

## How long should I hold the Product, and can I take money out early?

Recommended holding period: 5 years

This Product is designed for medium-term investments. You should be prepared to hold your investment in the Product for at least 5 years. However, you may request the redemption of your investment at any time during this period – there will be no penalty for doing so. You may also hold your investment for longer than the recommended holding period.

You can request the redemption of your shares on any day of the week, except on public holidays and on the days on which French markets are closed (see the official Euronext Paris S.A. calendar),for orders received by the clearing house before 12:30 pm on each net-asset valuation day.

A redemption cap mechanism (known as "gating") may be implemented by the Management Company. The way this works is described in the SICAV's Prospectus and Articles of Association.

# How can I complain?

If you wish to make a complaint regarding the Product, the Product manufacturer or the person distributing or advising you about the Product, with a view to having a right recognised or a damage remedied, please send us a written request, describing the problem and the details of the complaint, by post or e-mail, to:

Edmond de Rothschild Asset Management (France), 47, rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France.

E-mail: contact-am-fr@edr.com
