Production date | 01/01/2023

Warning

You are about to buy a product that is not simple and can be difficult to understand.

What does this product consist of?

Type | Subfund of a SICAV (open-end investment company) governed by French law. Each shareholder has co-ownership rights on the SICAV's net assets in proportion to the number of shares held.

Duration | The Fund was created on 30/05/2008 and its expected term is 99 years.

Objectives | ECHIQUIER ARTY SRI is a subfund whose objective is performance over the recommended investment period through a discretionary and opportunistic investment strategy on the interest rate and equity markets with a composite benchmark: 25% MSCI Europe Net Return, 25% compounded €STER, 50% Iboxx Euro Corporate 3-5 years. The manager of the subfund selects among the issuers in the investment universe those considered to have an attractive risk/return combination.

The UCITS' investment objective is associated with non-financial criteria - specifically environmental, social, and governance (ESG) criteria - such as the issuer's environmental policy, employee protection and expertise of the Management team, in accordance with a dual ESG Best in Universe and Best Effort approach. The UCITS implements active and discretionary management based on bond picking for fixed income and stock picking for securities.

The subfund invests between 0% and 50% of its net assets in equities, primarily mid-caps and large caps, in any business sector (companies with a capitalisation of less than €1 billion are limited to 10%). Investments will be made mainly in European equities (European Union, European Free Trade Association and United Kingdom), but with the possibility of investing up to 15% of its net assets in equities from countries outside this region, including in emerging market equities.

For fixed-income products, the minimum exposure of the UCITS to bonds or negotiable debt securities is 40% of its assets. At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Echiquier and using the ratings produced by agencies. The portion of securities deemed speculative, known as high-yield securities (rating below BBB -) or considered as such by the management team or unrated, may not exceed 10% of net assets for negotiable debt securities or 15% of net assets for bond securities. The subfund may also invest up to 40% of its net assets in subordinated bonds of the banking, insurance and corporate sector, including 10% maximum of contingent convertible bonds (so-called "coco" bonds). The issuers of fixed-income products will be mostly European (EU, EFTA and the United Kingdom).

In constructing the portfolio and assessing extra-financial criteria, the management team selects stocks according to an internal ESG rating methodology, after applying a sector exclusion filter.

This approach may have certain methodological limits detailed in the prospectus. In addition, for more detailed information on the extra-financial rating methodology used for the UCITS and its limits, investors should refer to the Transparency Code of La Financière de l'Echiquier available on www.lfde.com.

The UCITS may trade in derivatives to:

- Reduce the portfolio's exposure to equity markets, foreign exchange and interest rate risks.
 - Exceptionally expose the portfolio to currency, interest rate and equity risks.
- The UCITS does not, in any event, intend to implement a strategy of over-exposing the portfolio to these various risks.

The UCITS is prohibited from investing in securitisation products (ABS, CDO, etc.) or in over-the-counter credit derivatives (CDS).

Benchmark | COMPOUNDED €STER 25.00 %, IBOXX EUR CORP 3-5 YEARS 50.00 %, MSCI EUROPE NR 25.00 %

Allocation of income | Accumulation

Cut-off time for centralising subscription/redemption orders | The investor may obtain a redemption on request every business day. Redemption requests are centralised each market trading day before 12 p.m. (Paris time) with our centralising agent BNP Paribas SA and executed on the net asset value calculated on the closing price on the day they are centralised.

Valuation frequency | The net asset value is calculated daily except on days when the Paris stock exchange is closed and on French public holidays.

Targeted retail investors | Potential investors are aware of the risks inherent in holding this type of product and have an investment horizon corresponding to its recommended investment period.

Insurance | Not applicable.

Maturity date | This product has no maturity date.

Custodian | BNP Paribas SA

The prospectus, the annual reports and the most recent interim documents, as well as any other practical information, and in particular where to find the most recent price of the shares are available on our website www.lfde.com or upon simple written request, free of charge, at: La Financière de l'Echiquier, 53 avenue d'Iéna, 75116 Paris

What are the risks and what could this mean for me?

Risk indicator

The risk indicator is based on the assumption that you hold equities for 5 years.

Warning: The real risk can be very different if you opt for an exit before this period, and you could get less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to others. It indicates the likelihood that this product will incur losses in the event of market movements or if we are unable to pay you.

We have classified the product in risk class 3 out of 7, which is a low to medium risk class. In other words, the potential losses linked to the product's future results are low to medium and, if the situation deteriorates in the financial markets, it is unlikely that our ability to pay you will be affected.

Risks materially relevant and not taken into account in the indicator:

Credit risk I Credit risk is the risk that the credit quality of an issuer will decline or that the issuer will default. The value of debt securities or bonds in which the Fund invests may fall, causing the Fund's net asset value to decline.

Guarantee: The capital initially invested is not guaranteed.

Performance scenarios (amounts expressed in euros) I

What you will get from this product depends on future market performance. Future market developments are random and cannot be predicted precisely. The adverse, intermediate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product over the past 10 years. Markets could move very differently in the future. The stress scenario shows what you could get in extreme market situations. This type of scenario is produced for an investment of between 1 and 5 years.

Recommended holding period: 5 years

Example of an Investment: € 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Minimum	As this product does not provide protection against market fluctuations, there is no guaranteed minimum return if you exit before 5 years. You may lose some or all of your investment.		
Stress	What you could get after deducting costs	€ 6,580	€ 6,440
	Average annual return	-34.19%	-8.41%
Adverse	What you could get after deducting costs	€ 8,540	€ 9,130
	Average annual return	-14.64%	-1.81%
Intermediate	What you could get after deducting costs	€ 10,050	€ 10,730
	Average annual return	0.47%	1.43%
Favourable	What you could get after deducting costs	€ 11,420	€ 12,820
	Average annual return	14.19%	5.11%

The figures shown include all costs of the product itself, including the portion paid to your advisor or distributor by La Financière de l'Échiquier. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

This table displays the amounts you could obtain according to different scenarios and according to the following parameters:

- an investment of €10,000;
- and holding periods of 1 year and 5 years, the latter being equal to the recommended holding period.

These different scenarios indicate how your investment might behave and allow you to compare with other products.

The scenarios presented are an estimate of future performance based on past data on changes in the value of this investment. They are not an exact indicator. What you will get will depend on the evolution of the financial market and the length of time you will keep the investment or product.

What happens if La Financière de l'Échiquier is unable to make payments?

La Financière de l'Échiquier is an asset management company approved and monitored by the Autorité des Marchés Financiers and must comply with organisational and operating rules, particularly in terms of capital. The Fund's assets are recorded in one or more bank accounts opened in the name of the Fund, which is the subject of segregation of assets from those of the management company. Consequently, the default of La Financière de l'Échiquier would not have an impact on the Fund's assets.

What will this investment cost me?

The person who sells this product to you or who provides you with advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time (amounts expressed in euros):

The tables show the amounts deducted from your investment in order to cover the different types of costs. These amounts depend on the amount you invest, the time you hold the product, and the product's return. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We assumed:

- that in the first year you will recover the amount you invested (annual return of 0%). That for other holding periods, the product changes as indicated in the intermediate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Total costs	€ 470	€ 1,247
Impact of annual costs (*)	4.75%	2.36% each year

(*) It shows the extent to which costs reduce your return annually during the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is 3.79% before costs and 1.43% after this deduction.

We may share the costs with the person selling the product to cover the services they provide to you. This person will inform you of the amount.

Composition of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	3.00% of the amount you pay when you enter the investment. This is the maximum amount you will pay. The person selling the product will inform you of the actual costs.	EUR 300
Exit costs	We will not charge an exit cost for this product, but the person who sells the product can do so.	EUR 0
Recurring costs charged each year		
Management fees and other administrative and operating expenses	1.51% of the value of your investment per year. This estimate is based on actual costs over the past year.	EUR 146
Transaction costs	0.24% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies according to the quantity we buy and sell.	EUR 24
Ancillary costs deducted under certain conditions		
Performance fees and incentive fees	There are no performance fees for this product.	EUR 0

How long should I keep it and can I withdraw money early?

The recommended investment period is at least 5 years due to the nature of the assets underlying this investment.

Holding for a period shorter than the recommended period may not be in the investor's best interests.

You can request redemption of your shares on a daily basis. Redemptions are executed on a daily basis.

How can I make a complaint?

You may make a complaint about the product or behaviour (i) of La Financière de l'Échiquier (ii) of a person who provides advice on this product, or (iii) a person who sells this product by sending an e-mail or letter to the following persons, as the case may be:

- If your complaint concerns the person who provides you with advice on the product or who offers it to you, please contact that person directly.
- If your complaint relates more specifically to the product itself or the behaviour of La Financière de l'Échiquier, you can send a letter to the following address: La Financière de l'Échiquier - 53 avenue d'Iéna, 75116 Paris.

We invite you to consult the complaints handling procedure available on the company's website www.lfde.com for more information and in particular on the possibility of recourse to the Ombudsman of the Autorité des Marchés Financiers.
