The following risks borne by the Fund and not taken into account in the indicator may have a negative impact on the Fund’s net asset value:

For a description of all the risks, please refer to the Fund prospectus. The materialisation of one of these risks could lead to a drop in the net asset value of Fund.

What happens if Tikehau Investment Management is unable to make the payments?

The Fund jointly owns financial instruments and deposits separately from the Management Company. If the latter failed, the product's assets held by the custodian would not be affected. If the Custodian failed, the risk of a financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets. Any losses are not covered by an investor compensation or guarantee system.

What are the costs ?

The person who sells you this product or who provides advice on it may charge you additional fees. If so, said person shall inform you of such fees and of the impact they have on your investment.
