This product is authorised in France. Candriam is approved in France and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This key information document is valid as at 2024-10-31.

## WHAT DOES THIS PRODUCT CONSIST OF?

**Type:** This product is a share class ("Classique") of a Société d'Investissement à Capital Variable (SICAV) governed by French law ("Candriam Monétaire SICAV"), Undertaking for Collective Investment in Transferable Securities (UCITS).

**Term:** 99 years.

### Objectives:

### Classification:

Standard money market. Variable Net Asset Value (VNAV) money market Sicav.

### Investment objectives:

By investing in the principal assets traded, the fund aims to outperform the benchmark index €STR (Euro Short Term Rate) Capitalized over the recommended investment period, minus management fees. However, in certain market situations such as a very low level of the capitalised €STR (Euro Short Term Rate) Capitalized, the NAV may fall structurally, with negative returns over a particular period.

**Benchmark:** €STR (Euro Short Term Rate) Capitalized.

The SICAV is managed actively and the investment approach implies a reference to a benchmark.

Use of the benchmark:

- to compare performance.

### Investment strategy:

Within the limits of the fund's investment objective and policy, the management team makes discretionary investment choices in the portfolio based on its analyses of the characteristics and growth prospects of the assets traded.

Instruments are selected on the basis of an internal analysis of the credit risk. The sale or purchase of a line is therefore not solely based on the rating by the agencies, but under the best conditions compatible with the interests of the holders.

The SICAV uses derivatives solely for hedging purposes on the interest rate risk market (interest rate futures and swaps) and on the foreign exchange risk market.

The SICAV promotes, among other characteristics, environmental and/or social characteristics but does not have sustainable investment as its objective. Environmental, social and governance (ESG) criteria contribute to the asset manager's decision-making but are not a decisive factor in this decision-making. For more information, please see the management company's website and/or the prospectus.

### Principal assets traded:

Money market instruments, bonds and other debt securities which can make up 100% of the net assets, which meet the definition of money market instruments and which are denominated in euros. The investment portfolio essentially invests in negotiable debt securities and bonds with a short-term issuer rating of at least A2 (or equivalent) by one of the ratings agencies (in other words highly rated issuers) or on the basis of internal analyses. By way of derogation, the fund may invest up to 100% of its assets when it invests in money market instruments issued or guaranteed individually or jointly by the European Union and national, regional and local administrations.

**Repayment of shares:** On demand, every day, in France. Subscription and redemption orders must be received by CACEIS BANK, each business day before 12.00 noon. Subscription and redemption orders will be processed on the basis of the net asset value calculated according to the previous day's prices. However, it may be recalculated to take account of any exceptional market event occurring before orders are centralised. The date of publication of the net asset value which can no longer be recalculated, is D.

**Allocation of income:** Capitalisation.

### Intended retail investors:

This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience who are looking for Capital Preservation. This product can be used as a core holding or a component of a diversified portfolio for investments with an investment horizon of 0.25 years. Investors should understand the product risks and only invest if they can bear a limited level of losses on the initial investment.

### General information:

**Depository bank:** CACEIS BANK.

### Other information:

This document provides a description of a category of shares of Candriam Monétaire SICAV. The prospectus and periodical reports are established for all the categories. There are other share classes and these are listed in the prospectus.

Additional information about the fund can be found in the prospectus and the periodical reports, which may be obtained free of charge on request from Candriam - Succursale française or viewed at any time on the website www.candriam.com. These documents are available in one of the languages approved by the local authority of each country where the fund is authorised to market its shares or in a common language in the international finance sphere. All other practical information, in particular the latest share price, is available from the places shown above.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 0.25 year. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 1 out of 7, which is the lowest risk class.

This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact the capacity to pay you.

**Other risk(s) materially relevant not included in the summary risk indicator:** Credit. Counterparty. Derivatives.

This product does not include any protection from future market performance so you could lose some or all of your investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and/or a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 01/2020 and 04/2020.

Moderate: This type of scenario occurred for an investment between 01/2017 and 04/2017.

Favourable: This type of scenario occurred for an investment between 01/2024 and 04/2024.

Recommended holding period Example Investment:		0.25 year 10 000 EUR
		If you exit after 0.25 year
<b>Scenarios</b>		
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>	
<b>Stress</b>	<i>What you might get back after costs</i>	<b>9 970 EUR</b>
	Average return each year	- 0.28%
<b>Unfavourable</b>	<i>What you might get back after costs</i>	<b>9 970 EUR</b>
	Average return each year	- 0.28%
<b>Moderate</b>	<i>What you might get back after costs</i>	<b>9 990 EUR</b>
	Average return each year	- 0.07%
<b>Favourable</b>	<i>What you might get back after costs</i>	<b>10 100 EUR</b>
	Average return each year	1.01%

## WHAT HAPPENS IF CANDRIAM IS UNABLE TO PAY OUT?

As the Funds' assets are held with the depositary, they are not part of the assets of Candriam in case of bankruptcy and cannot be seized by the creditors of Candriam. Nevertheless, investors run the risk to suffer a financial loss in case of the default of Candriam.

In case of default of the depositary, the risk of a financial loss is mitigated to some extent as the Fund's assets are legally segregated from the assets of the depositary.

The potential financial loss associated with the default of Candriam is not covered by an investor compensation or guarantee scheme.

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

	If you exit after 0.25 year
<b>Total costs</b>	<b>11.7 EUR</b>
Cost impact (*)	0.1%

\* This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

If the fund is part of another product, such as an insurance product, the costs shown here do not include any additional costs you may incur.

## Composition of Costs

One-off entry or exit costs		If you exit after 0.25 year
<b>Entry costs</b>	We do not charge any entry fee.	0 EUR
<b>Exit costs</b>	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	0.35% of the value of your investment per year. This is an estimate based on actual costs over the last year.	9 EUR
<b>Transaction costs</b>	0.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3 EUR
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this product.	N/A

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

**Recommended holding period** **0.25 year**

The choice of recommended holding period depends on the types of the underlying investments and on the associated degree of risk, which may be higher or lower. For example “equity” type products (higher risk) generally have a recommended holding period of six years (long term), and “bonds or money market” type products (lower risk) have a shorter recommended holding period (generally between two and four years for bond products or less than one year for money market products - medium term/short term). “Mixed” type products generally have a recommended holding period of between three and five years depending on the weighting of the types of underlyings. “Alternative” type products generally have a recommended holding period of three years.

Investors may request redemption of their units at any time under the conditions set out in “What will this investment cost me? “. The shorter the holding period in relation to the recommended period, the greater the potential impact of any charges on the performance profile.

## HOW CAN I COMPLAIN?

Complaints about this product or about the conduct of the product manufacturer or the person advising on, or selling, the product:

Postal address: Candriam - Succursale française, 40, rue Washington, 75408 PARIS Cedex 08  
 Website: <https://www.candriam.fr/contact/>
