

# Key Investor Information Document

## Objective

This document contains essential information about this investment product. This is not promotional material. This information is required by law to help you understand what this product is along with the potential risks, costs, gains and losses that are associated with it, and to help you compare it to other products.

## La Française Rendement Global 2025 - I shares - FR0013258654

### Product

**Product:** La Française Rendement Global 2025 - I shares

**ISIN code:** FR0013258654

**Initiator:** Crédit Mutuel Asset Management. The Autorité des marchés financiers (AMF) is responsible for monitoring Crédit Mutuel Asset Management with regard to this key information document. Crédit Mutuel Asset Management is authorised in France under no. GP 97-138 and regulated by the AMF. Further information is available on the management company's website, [www.la-francaise.com](http://www.la-francaise.com) or [www.creditmutuel-am.eu](http://www.creditmutuel-am.eu) or by calling + 33 1 44 56 10 00.

**Date of production of the key information document:** 01/05/2024

### What is this product?

**Type of product:** Sub-fund of the SICAV LA FRANÇAISE

**Product lifespan:** 99 years

#### Objectives:

The objective of the fund, classified as "Bonds and other international debt instruments", is to outperform (net of fees) bonds issued by the French Government denominated in EUR maturing in 2025, over the recommended investment period of 8 years from the launch date of the Fund until 31/12/2025. The potential profitability of the fund comes from the value of the accrued coupons of the bonds in the portfolio and the variations in capital due to the fluctuation in interest rates and credit spreads.

The net annualised performance objective is based on the achievement of market assumptions set by the management company. It is not a guarantee of Fund return or performance. Investors should note that the performance indicated in the management objective of the fund takes account of the estimate of the risk of default or downgrading of the rating of one or more issuers in the portfolio, the cost of currency hedging and the management fees payable to the management company.

**Benchmark index:** The fund is not linked to a benchmark index. The fund is managed actively and on a discretionary basis. The fund is not managed with reference to an index.

#### Investment strategy:

Sensitivity range: from 8 to 0 (decreasing over time).

The investment strategy involves the discretionary management of a portfolio of bonds issued by private or public bodies. The fund will invest in bonds that mature in December 2025 at the latest and/or bonds with a longer maturity, but which have a call option before December 2025. The strategy is not limited to bond carrying; the management company may use arbitrage in the event of new market opportunities or if an increased risk of default by one of the issuers in the portfolio is detected.

Up to 100% of the fund is invested in fixed or floating rate bonds and other negotiable debt instruments, in money market instruments and up to 30% in convertible bonds, issued by public and/or private entities from OECD countries [0-100%]; non-OECD public entities (emerging markets) [0-100%]; non-OECD private entities (emerging markets) [0-50%], in all economic sectors.

Securities are denominated in EUR and/or USD and/or GBP and/or NOK and/or CHF. The exchange risk for securities not denominated in EUR is systematically hedged. The issues (or, failing that, the issuers) are Investment Grade (rating better than or equal to BBB- (Standard&Poors) or Baa3 (Moody's) or equivalent according to the management company's analysis) and/or High Yield issues (of a speculative nature) (rating less than BBB- or Baa3 or equivalent according to the management company's analysis). Investment in unrated securities is not permitted. The management company shall not exclusively or automatically rely on external ratings but may, upon the issuance of such a rating, take it into consideration for its credit analysis.

During the period starting from the first subscription date and up until the minimum amount of the assets under management reaches 7 (seven) million euros, the fund will be invested in money market securities.

The fund may carry out transactions for the temporary purchase and sale of securities.

Financial futures, traded on regulated or over-the-counter markets, are used to hedge and/or expose the portfolio to interest rate and/or credit futures markets, and with the aim of solely hedging on future exchange markets: futures, forwards, options, interest rate swaps, foreign exchange swaps, foreign exchange forwards, credit default swaps (single underlying CDS, index CDS), options, options on CDS (up to 15% of net assets), non-deliverable forward.

The fund may carry out Total Return Swaps (TRS).

Given the management implemented, the fund's risk profile will vary over time; exposure to different risk factors will decrease as the investment strategy approaches its maturity. As the fund approaches maturity and depending on the prevailing market conditions, the management company will opt either to continue the investment strategy, merge with another UCITS or liquidate the fund, subject to the AMF's approval.

**The latest prospectuses, the latest net asset value of the shares, the annual report and the periodic information document of the fund's shares:** Legal documents are available on request and free of charge from the management company or on the websites: [www.la-francaise.com](http://www.la-francaise.com) and/or [www.creditmutuel-am.eu](http://www.creditmutuel-am.eu). You can get this information free of charge on request from [serviceclient@la-francaise.com](mailto:serviceclient@la-francaise.com). Any further information is available from the Customer Service Nominative Products Department using the following contact details: [serviceclient@la-francaise.com](mailto:serviceclient@la-francaise.com).

#### Target retail investors:

Reserved for professional clients within the meaning of MiFID and clients of the BPCE group

The UCI is not open to residents of the United States of America/US Person.

**Depository** The Depository of the UCITS is BNP Paribas S.A., located at 9 rue du Débarcadère, 93500 PANTIN (the "Depository"). BNP Paribas S.A., registered in the Trade and Companies Register under number 662 042 449, is an institution approved by the Autorité de Contrôle Prudentiel et de Résolution (ACPR) and regulated by the French Financial Markets Authority (Autorité des Marchés Financiers – AMF), whose registered office is located at 16 Boulevard des Italiens, 75009 Paris, France.

**Subscription to the Fund will close on 30 September 2020 at 11:00 a.m..** From this date, only subscriptions preceded by a redemption on the same day for the same number of units, for the same net asset value and by the same unitholder may be executed.

Allocation of distributable amounts: Capitalisation

### Risk and Reward Profile

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes that you will be keeping the product up until 31 December 2025.

The actual risk may be very different if you opt for an earlier exit, and you may get less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to others. It indicates the likelihood of this product incurring losses in the event of market developments or our inability to pay you.

We have classified this product in risk class 3 out of 7, which is a low to medium risk class. In other words, the potential losses linked to the future performance of the product are at a low to medium level and, if the situation were to deteriorate on the markets, it is unlikely that our ability to pay you would be affected.

**Risks with significance for the SICAV not included in this indicator:**

- Risk arising from techniques such as derivatives:
- Credit risk
- Counterparty risk

This product is not protected from market fluctuations, and you may therefore lose all or part of your investment.

**Performance scenarios**

What you get out of this product depends on future market performance. The future development of the market cannot be accurately predicted.

The scenarios shown here represent examples based on past performance and certain assumptions.

Recommended investment period: 31/12/2025 Investment example: €10,000		If you exit after 1 year	If you exit after 31/12/2025
<b>Scenarios</b>			
<b>Stress scenario</b>	<b>What you could get after costs are deducted</b>	€4,340	€5,900
	Average annual return	-56.60%	-20.87%
<b>Adverse scenario</b>	<b>What you could get after costs are deducted</b>	€7,890	€7,960
	Average annual return	-21.14%	-9.63%
<b>Intermediate scenario</b>	<b>What you could get after costs are deducted</b>	€9,880	€10,250
	Average annual return	-1.15%	1.10%
<b>Favourable scenario</b>	<b>What you could get after costs are deducted</b>	€12,560	€11,890
	Average annual return	25.63%	7.99%

The unfavourable, intermediate and favourable scenarios presented represent examples using the best and worst performances, as well as the average performance of the product, calculated over a minimum of 10 years of data. Markets could perform very differently in the future.

This type of adverse scenario has occurred for an investment between: 12/2017 and 03/2020.

This type of intermediate scenario has occurred for an investment between: 08/2019 and 11/2021.

This type of favourable scenario has occurred for an investment between: 01/2016 and 04/2018.

This table shows the amounts you could get by 31/12/2025, under different scenarios, assuming you choose to invest €10,000.

The different scenarios show how your investment may perform. You can compare them with the scenarios of other products. The stress scenario shows the potential returns you may obtain in extreme market situations.

The figures shown include all the costs of the product itself, but not necessarily all the fees payable to your advisor or distributor.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

**Ⓜ What happens if Crédit Mutuel Asset Management is unable to make the payments?**

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of defaulting by this latter, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated by the legal separation of the depositary's assets from those of the product.

**Ⓜ What will this investment cost me?**

You may be asked to pay additional costs by the person selling or advising you about the product. If so, this person will inform you about these costs and show you the impact of all costs on your investment over time.

**Costs over time:**

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and how well the product performed. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- that during the first year you would get back the amount you invested (annual return of 0%) and for the other holding periods, the product evolves as indicated in the intermediate scenario.
- that you have invested €10,000.

Investment: €10,000	If you exit after 1 year	If you exit after 31/12/2025
<b>Total costs</b>	€ 409	€ 561
<b>Cost impact*</b>	4.12%	2.53%

(\*) This illustrates how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 3.63% before costs and 1.10% after costs.

**Breakdown of costs:**

One-off entry or exit costs		If you exit after 1 year
<b>Entry cost</b>	<b>Maximum 3.00% of the amount you pay at the time of entry into the investment, not including the distribution costs for your product. The person selling you the product will be able to tell you the actual costs.</b>	<b>up to €300</b>
<b>Exit cost</b>	<b>We do not charge an exit fee for this product.</b>	<b>€0</b>
Recurrent costs [collected annually].		
<b>Management fees and other administrative and operating expenses</b>	<b>Maximum 0.69% of the value of your investment per year. This estimate is based on actual costs over the past year.</b>	<b>€ 67</b>
<b>Transaction costs</b>	<b>0.43% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.</b>	<b>€ 42</b>
Recurring costs collected under certain conditions		

Performance-related fees	There are no performance-related fees for this product.	€0
--------------------------	---	----

## 🕒 How long should I keep my investment and can I withdraw money early?

Recommended holding period: 31/12/2025

### Possibilities and conditions for divestment before maturity:

Redemptions are centralised at 11:00 a.m. every day (T) by La Française AM Finance Services and carried out on the basis of the next net asset value, with settlement on T+2 (trading days).

**Subscription to the Fund will close on 30 September 2020 at 11:00 a.m..** From this date, only subscriptions preceded by a redemption on the same day for the same number of units, for the same net asset value and by the same unitholder may be executed.

## 🗉 How can I make a complaint?

Complaints should be directed to the customer services department of the La Française Group at 128 boulevard Raspail 75006 PARIS (reclamations.clients@la-francaise.com), by phone on +33 (0)1 53 62 40 60, or through the website: <https://www.la-francaise.com/fr/service-clientele/>

## 📄 Other relevant information
