Competent authority: Autorité des Marchés Financiers (AMF). Member State: France

Date of production of the KID: 01/07/2023

WHAT IS THIS PRODUCT?**Type**

Sub-fund of an open-ended investment fund (SICAV)

This document describes the R-co Target 2028 IG sub-fund of the SICAV, which may include other types of shares distributed in your Member State. The prospectus and periodic reports are drawn up for the entire SICAV. All of this information can be found at: <https://am.eu.rothschildandco.com>

The assets and liabilities of the SICAV's different sub-funds are segregated, so changes in another sub-fund's assets and liabilities will not affect R-co Target 2028 IG. Any switch between share classes of the sub-fund, or for shares of another sub-fund, is regarded as a sale followed by a repurchase and as such is subject to the tax system applicable to capital gains or losses on disposals of securities.

Term

The intended term of the fund is 99 years.

However, the sub-fund will be wound up automatically if the shareholders redeem all of the shares. Furthermore, the SICAV's Board of Directors may, at any time and for any reason, request the extension, early dissolution or liquidation of the SICAV at an extraordinary general meeting.

Objectives

The sub-fund is a UCITS in the "Bonds and other debt securities denominated in euro" category. The investment objective of the sub-fund, at the time of subscription and until 31/12/2028, is to achieve performance net of fees linked to the current yields on bonds maturing in 2028 by investing exclusively in securities rated "investment grade" (non-speculative). The portfolio's average maturity shall range from January to December 2028. As such, the sub-fund does not have a benchmark.

The sub-fund's investment strategy is not limited to buying and holding bonds: while the management company will typically hold its securities to maturity, it may carry out arbitrage transactions if it identifies issuers in the portfolio with a higher risk of default and/or if new market opportunities occur, in order to optimise the portfolio's average yield to maturity.

Portfolio construction is carried out in three stages: (i) a construction phase of around six months from sub-fund launch, during which the management company will invest in fixed-income securities maturing on or before 31 December 2029 and money market securities; (ii) a holding period (corresponding to the recommended investment horizon) during which at least 80% of the portfolio will consist of these fixed-income securities. The average maturity will fall between January and December 2028; and (iii) a monetisation period from 1 January 2028 where maturing fixed-income securities are replaced with money market instruments. The management company undertakes to convert, merge or liquidate the UCITS within six months of 30 June 2028. New subscriptions will no longer be accepted from 1 January 2024.

The UCITS will invest 80%-100% of its net assets (hereinafter "NA") in bonds with fixed, variable or adjustable rates, and other negotiable debt securities, inflation-linked bonds and medium-term notes, issued by

private corporations and/or supranational/public entities or governments, with a maximum of 10% of NA invested in convertible bonds and a minimum of 80% of NA denominated in euro. The securities may be from any geographical region, with up to 10% of NA issued by companies headquartered outside the OECD (including in emerging markets). Investment grade securities will make up at least 80% of NA in the sub-fund's portfolio. The sub-fund's exposure to speculative high yield bonds shall not exceed 10% of NA.

The equity component may account for up to 10% of the NA of the UCITS. For cash management purposes, it may invest up to 10% of NA in funds and up to 10% of NA in money market instruments. Foreign exchange risk represents up to 10% of the NA. With a view to achieving its investment objective (discretionary management), in particular in controlling the duration and credit risk of the portfolio, the UCITS may invest up to 100% of its NA, for hedging and/or exposure purposes, in forward financial instruments (such as futures, forwards, options and credit derivatives) and securities with embedded derivatives. The portfolio's modified duration* ranges from 0 to 6 and will decrease as the maturity approaches.

Valuation frequency: Daily. This share class will be closed to new subscriptions from 1 January 2024. Centralisation of subscription/redemption (S/R) orders: every day at 12.00 pm at Rothschild Martin Maurel. Order execution: next NAV (unknown price). Settlement date of S/R orders: NAV + 2 business days. This is an accumulation share class.

* Modified duration measures the variation in the price of a fixed-rate bond when interest rates change. The longer the residual term of a bond, the higher the modified duration.

Intended retail investor

With regard to the typical investor profile, this sub-fund is intended for investors seeking to generate returns in EUR-denominated fixed-income markets, including through exposure to securities rated "investment grade", over the recommended investment horizon.

Not available to US Persons.

Recommendation: this fund may not be suitable for investors planning to withdraw their money before 31 December 2028.

Practical information

The custodian of the UCITS is Rothschild Martin Maurel.

The prospectus of the UCITS and the latest annual and interim documents are available in French and will be sent out free of charge within eight business days of a simple written request being sent to the following address:

Rothschild & Co Asset Management - Service Commercial, 29 avenue de Messine, 75008 Paris.

The net asset value is published on the management company's website: <https://am.priips.rothschildandco.com>.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?**Risk indicator**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product until 31 December 2028. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this product as 2 out of 7, which is a low risk class and mainly reflects its positioning on credit risk and fixed-income products with residual maturity of up to one year on 31 December 2028.

This rates the potential losses from future performance at a low level, and poor market conditions are highly unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance nor any capital guarantee, so you could lose some or all of your investment.

Other materially relevant risks not taken into account by the indicator:

• **Impact of techniques such as using derivatives:** The use of derivatives may amplify the effect of market movements on the portfolio. For more information on risks, please refer to the fund prospectus.

Performance scenarios

The figures shown include all the costs of the product itself, as well as all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over at least the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: until the product matures (31/12/2028)

Investment: €10,000

Scenarios		If you exit after 1 year	If you exit at maturity (31/12/2028)
Minimum	There is no guaranteed minimum return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€8,200	€7,560
	Average return per year	-18.01%	-4.89%
Unfavourable	What you might get back after costs	€8,270	€8,660
	Average return per year	-17.31%	-2.54%
Moderate	What you might get back after costs	€9,930	€11,110
	Average return per year	-0.72%	1.90%
Favourable	What you might get back after costs	€10,600	€11,870
	Average return per year	5.96%	3.11%

This type of scenario is calculated with at least 10 years of data using the product's track record along with a proxy (any benchmark) if necessary.

WHAT HAPPENS IF ROTHSCHILD & CO ASSET MANAGEMENT IS UNABLE TO PAY OUT?

The fund is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of this company's insolvency, fund assets held with the custodian will not be affected. In the event of the custodian's insolvency, the risk of financial loss on the fund is mitigated by the legal segregation of the custodian's assets from those of the fund.

Investment in a fund is not guaranteed and is not covered by any national compensation scheme.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment.

Costs over time

The tables show the amounts taken from your investment to cover the different types of cost. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts given here are illustrations based on a sample investment and different possible investment periods. We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

Investment: €10,000

Scenarios	If you exit after 1 year	If you exit at maturity (31/12/2028)
Total costs	€331.41	€778.43
Impact of annual costs*	3.34%	1.32%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at end of the recommended holding period, your average return per year is projected to be 3.22% before costs and 1.90% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.50% of the amount you pay in when entering this investment. This is the maximum amount that you will pay. The person selling you the product will inform you of the actual charge.	€250.00
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	€0.00
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.61% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€58.99
Transaction costs	0.23% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€22.43
Ongoing costs taken under specific conditions		
Performance-related fees	There is no performance-related fee for this product.	€0.00

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: until the product matures on 31 December 2028, mainly because of its positioning on credit risk and fixed-income products with residual maturity of up to one year on 31 December 2028.

Cashing out early is possible each day. This share class will be closed to new subscriptions from 1 January 2024. Subscription/Redemption (S/R) orders are centralised every day at 12.00 pm at Rothschild Martin Maurel. Orders are executed at the next NAV (unknown price). Settlement date of S/R orders: NAV + 2 business days.

HOW CAN I COMPLAIN?

If you have a complaint, you can contact the Management Company's sales department by calling +33 (0)1 40 74 40 84, writing to Client Service at 29 avenue de Messine – 75008 Paris, or emailing: clientserviceteam@rothschildandco.com
