**Date of production of the KID:** 19/02/2024

**WHAT IS THIS PRODUCT?****Type**

Sub-fund of an open-ended investment fund (SICAV)

This document describes the R-co Target 2029 IG sub-fund of the SICAV, which may include other types of shares distributed in your Member State.

**Term**

The intended term of the fund is 99 years.

However, the sub-fund will be wound up automatically if the shareholders redeem all of the shares. Furthermore, the SICAV's Board of Directors may, at any time and for any reason, request the extension, early dissolution or liquidation of the SICAV at an extraordinary general meeting.

**Objectives**

The sub-fund is a UCITS in the "Bonds and other debt securities denominated in euro" category. The investment objective of the sub-fund, at the time of subscription and until 31/12/2029, is to achieve performance net of fees linked to the current yields on bonds maturing in 2029 by investing exclusively in securities rated investment grade (non-speculative). The portfolio's average maturity shall range from January to December 2029. As such, the sub-fund does not have a benchmark.

The sub-fund's investment strategy is not limited to buying and holding bonds: while the management company will typically hold its securities to maturity, it may carry out arbitrage transactions, particularly if it identifies issuers in the portfolio with a higher risk of default and/or if new market opportunities occur, in order to optimise the portfolio's average yield to maturity.

Portfolio construction is carried out in three stages: (i) a portfolio creation period corresponding to the period in which the sub-fund is accepting subscriptions, during which the management company of the UCITS will gradually invest in fixed-income securities maturing on or before 31 December 2030 and money market securities; (ii) a holding period (corresponding to the recommended investment horizon) during which at least 80% of the portfolio will consist of these fixed-income securities. The average maturity will fall between January and December 2029; and (iii) a monetisation period from 1 January 2029 where maturing fixed-income securities are replaced with money market instruments. The management company undertakes to convert, merge or liquidate the UCITS within six months of 30 June 2029. New subscriptions will no longer be accepted from 1 January 2025.

The UCITS will invest 80%-100% of its net assets (hereinafter "NA") in bonds with fixed, variable or adjustable rates, and other negotiable debt securities and inflation-linked bonds, issued by private corporations and/or supranational/public entities or governments, and negotiable medium-term notes, with a maximum of 10% of NA invested in convertible bonds and a minimum of 90% of NA denominated in euro. The securities may be from any geographical region, with up to 10% of NA issued by companies headquartered outside the OECD (including in

emerging markets). Investment grade securities will make up at least 80% of NA in the sub-fund's portfolio. The sub-fund's exposure to speculative high-yield bonds shall not exceed 10% of NA.

The equity component may account for up to 10% of the NA of the UCITS. For cash management purposes, it may invest up to 10% of NA in funds and up to 10% of NA in money market instruments. Foreign exchange risk represents up to 10% of the NA. With a view to achieving its investment objective (discretionary management), in particular as regards managing the duration and credit risk of the portfolio, the UCITS may invest up to 100% of its NA, for hedging and/or exposure purposes, in forward financial instruments (such as futures, forwards, options, currency futures and credit derivatives) and in securities with embedded derivatives. The portfolio's modified duration\* ranges from 0 to 6 and will decrease as the maturity approaches. The sub-fund's overall exposure, including exposure resulting from forward financial instruments, will not exceed 200%.

Valuation frequency: Daily. This share class will be closed to new subscriptions from 1 January 2025. Centralisation of subscription/redemption (S/R) orders: at 12.00 pm every day with Rothschild Martin Maurel for bearer shares recorded at Euroclear, and with IZNES for pure registered shares already recorded or to be recorded on IZNES's shared electronic record system (DEEP). Order execution: next NAV (unknown price). Settlement date of S/R orders: NAV + 2 business days. This is an accumulation share class.

\* Modified duration measures the variation in the price of a fixed-rate bond when interest rates change. The longer the residual term of a bond, the higher the modified duration.

**Intended retail investor**

This sub-fund is intended for investors seeking to generate returns in EUR-denominated fixed-income markets, including through exposure to securities rated "investment grade", over the recommended investment horizon.

Not available to US Persons.

Recommendation: this fund may not be suitable for investors planning to withdraw their money before 31 December 2029.

**Practical information**

The custodian of the UCITS is Rothschild Martin Maurel.

The prospectus of the UCITS and the latest annual and interim documents are available in French and will be sent out free of charge within eight business days of a simple written request being sent to the following address:

Rothschild & Co Asset Management - Service Commercial, 29 avenue de Messine, 75008 Paris.

The net asset value is published on the management company's website: <https://am.priips.rothschildandco.com>.

**WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?****Risk indicator**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product until 31 December 2029. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this product as 2 out of 7, which is a low risk class and mainly reflects its positioning on credit risk and fixed-income products with a maximum residual maturity of 31 December 2030.

This rates the potential losses from future performance at a low level, and poor market conditions are highly unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance nor any capital guarantee, so you could lose some or all of your investment.

**Other materially relevant risks not taken into account by the indicator:**

• **Credit risk:** The risk of an issuer's default, or a deterioration in the issuer's creditworthiness, with the potential to negatively affect the price of the assets in the portfolio.

For more information on risks, please refer to the fund prospectus.

**Performance scenarios**

The figures shown include all the costs of the product itself, as well as all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over at least the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between July 2021 and December 2023. The moderate scenario occurred for an investment between November 2015 and November 2021. The favourable scenario occurred for an investment between August 2013 and August 2019.

**Recommended holding period:** until the product matures (31/12/2029)

**Investment:** €10,000

Scenarios		If you exit after 1 year	If you exit at maturity (31/12/2029)
<b>Minimum</b>	<b>There is no guaranteed minimum return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	€8,200	€7,570
	Average return per year	-18.04%	-4.53%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	€8,220	€8,850
	Average return per year	-17.85%	-2.01%
<b>Moderate</b>	<b>What you might get back after costs</b>	€9,920	€11,060
	Average return per year	-0.84%	1.70%
<b>Favourable</b>	<b>What you might get back after costs</b>	€10,600	€12,140
	Average return per year	5.96%	3.28%

This type of scenario is calculated with at least 10 years of data using the product's track record along with a proxy (any benchmark) if necessary.

**WHAT HAPPENS IF ROTHSCHILD & CO ASSET MANAGEMENT IS UNABLE TO PAY OUT?**

The fund is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of this company's insolvency, fund assets held with the custodian will not be affected. In the event of the custodian's insolvency, the risk of financial loss on the fund is mitigated by the legal segregation of the custodian's assets from those of the fund.

Investment in a fund is not guaranteed and is not covered by any national compensation scheme.

**WHAT ARE THE COSTS?**

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment.

**Costs over time**

The tables show the amounts taken from your investment to cover the different types of cost. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts given here are illustrations based on a sample investment and different possible investment periods. We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

**Investment:** €10,000

Scenarios	If you exit after 1 year	If you exit at maturity (31/12/2029)
<b>Total costs</b>	€366	€1,065
<b>Impact of annual costs*</b>	3.69%	1.65%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at end of the recommended holding period, your average return per year is projected to be 3.34% before costs and 1.70% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

**Composition of costs**

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	2.50% of the amount you pay in when entering this investment. This is the maximum amount that you will pay. The person selling you the product will inform you of the actual charge.	€250
<b>Exit costs</b>	We do not charge an exit fee for this product, but the person selling you the product may do so.	€0
<b>Ongoing costs taken each year</b>		
<b>Management fees and other administrative or operating costs</b>	1.01% of the value of your investment per year. This is an estimate.	€99
<b>Transaction costs</b>	0.18% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€17
<b>Incidental costs taken under specific conditions</b>		
<b>Performance-related fees</b>	There is no performance-related fee for this product.	€0

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

**Recommended holding period: until the product matures on 31 December 2029**, mainly because of its positioning on credit risk and fixed-income products with maximum residual maturity of 31 December 2030.

Cashing out early is possible each day. This share class will be closed to new subscriptions from 1 January 2025. Subscription/Redemption orders (S/R) are centralised at 12 noon every day with Rothschild Martin Maurel for bearer shares recorded at Euroclear, and with IZNES for pure registered shares already recorded or to be recorded on ISNES's shared electronic record system (DEEP). Orders are executed at the next NAV (unknown price). Settlement date of S/R orders: NAV + 2 business days.

## HOW CAN I COMPLAIN?

If you have a complaint, you can contact the Management Company's sales department by calling +33 (0)1 40 74 40 84, writing to Client Service at 29 avenue de Messine – 75008 Paris, or emailing: [clientserviceteam@rothschildandco.com](mailto:clientserviceteam@rothschildandco.com)

## OTHER RELEVANT INFORMATION

The assets and liabilities of the SICAV's different sub-funds are segregated, so changes in another sub-fund's assets and liabilities will not affect R-co Target 2029 IG. Any switch between share classes of the sub-fund, or for shares of another sub-fund, is regarded as a sale followed by a repurchase and as such is subject to the tax system applicable to capital gains or losses on disposals of securities.

The prospectus of the UCITS and the latest annual and interim documents are available in French, drawn up for the entire SICAV. All of this information can be found at: <https://am.eu.rothschildandco.com> and will be sent out free of charge within eight business days of a simple written request being sent to the following address:

Rothschild & Co Asset Management - Service Commercial, 29 avenue de Messine, 75008 Paris.

The fund's net asset value and track record over a period of up to 10 years are published on the management company's website: <https://am.priips.rothschildandco.com>

The fund promotes certain environmental and social characteristics as defined in Article 8 of the SFDR and good governance practices. The Management Company's ESG Policy and Principal Adverse Impacts Policy are available on the website: <https://am.fr.rothschildandco.com/en/responsible-investing/documentation/>.

Any saver or investor who has an individual dispute with a financial intermediary may refer the matter to the AMF Ombudsman.

Where this product is used as a unit-linked vehicle for a life insurance or endowment policy, further information about this policy such as (i) policy costs that are not included in the costs shown within this document, (ii) the person to contact in the event of a complaint, and (iii) what happens in the event of the insurance company's insolvency, are presented in the policy's key information document, which your insurer or broker or any other insurance intermediary is legally required to provide you with.

The SICAV's prospectus with articles of association (Switzerland edition), key investor information, and annual and semi-annual reports, may be obtained free of charge from the representative in Switzerland. Representative in Switzerland: Rothschild & Co Bank AG, Zollikerstrasse 181, 8034 Zurich. Paying agent in Switzerland: Rothschild & Co Bank AG, Zollikerstrasse 181, 8034 Zurich.
