What is this product?

Type:

This product is a UCITS Fund. The Fund's assets are held through its Depository, which is Societe Generale S.A., Dublin Branch.

Term:

This Fund is an open-ended UCITS and has an indefinite duration. The Fund may be terminated at any time in line with the constitutional documents of the Trust. For full investment objectives and policy details, please refer to the Investment objectives and investment policy in the Fund's Supplement to the Prospectus, which are available at <https://web.gavekal-capital.com>.

Objective:

The investment objective of the Fund is to achieve growth on your investment over the long term.

Investment Policy:

The Fund will seek capital appreciation through tactical asset allocation between the currencies, government bonds, corporate bonds, convertible bonds and equities of the Asia-Pacific region.

The Fund's investments consist primarily of equities, bonds and other fixed income instruments issued by companies based in, and the governments of, countries in the Asian-Pacific region, and deposits in currencies of that region. Investments may also include securities of issuers in Asia and Australasia but traded elsewhere.

The Fund may invest in and have direct access to China A Shares listed on the Shanghai Stock Exchange via the Shanghai-Hong Kong Stock Connect Scheme or the Shenzhen-Hong Kong Stock Connect Scheme ("Stock Connect") and to debt and debt related securities traded in the China Interbank Bond Market ("CIBM") through the China Hong Kong Mutual Access Program ("Bond Connect").

The Fund is a long-only fund and may use futures contracts traded on a recognised exchange only for hedging or as an alternative to buying or selling the equivalent securities.

The Fund may hold or maintain ancillary liquid assets. The Fund may utilise techniques and instruments such as futures, options, repurchase/reverse repurchase agreements and forward currency contracts subject to the conditions and limits set out in the UCITS Notices.

The Fund is considered to be actively managed in reference to MSCI AC Asia Pacific Index (the "Index") by virtue of the fact that it uses the Index for performance comparison purposes. Certain of the Fund's securities may be components of and may have similar weightings to the Index. However, the Index is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Index."

Dealing:

You may buy, sell and switch units daily by submitting an application to the Fund's administrator before 5 p.m. (Irish time) on the day falling 2 business days prior to the relevant valuation date. The Administrator may at any time redeem, or request the transfer of, units held by unitholders who are excluded from purchasing or holding units under the Trust Deed. Any such redemption will be made on a Dealing Day at a price equal to the Net Asset Value per unit on the relevant Dealing Day on which the units are to be redeemed. Please see the Prospectus for further information.

Intended investor:

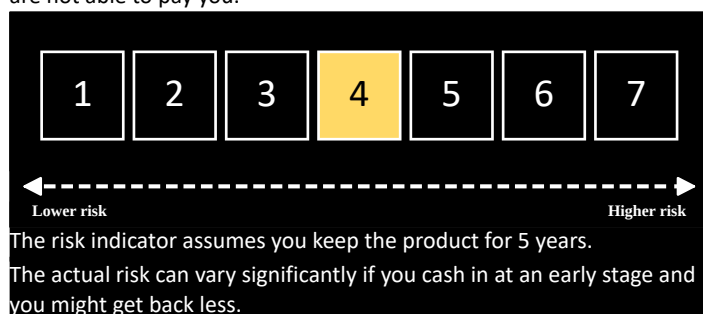

This Fund is appropriate for investors with a long-term investment horizon. The Investment Adviser recommends 3 years investment in the Fund.

The latest published prices of shares of each share class of the Fund are available from <https://web.gavekal-capital.com> and on Bloomberg.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is “a medium” risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you a positive return on your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product’s Annual Report or Prospectus available at <https://web.gavekal-capital.com>. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product which may include input from the benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you may get less in extreme market circumstances.

Recommended holding period:		3 years	
Example Investment:		€10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 3 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	€3,330	€3,910
	Average return each year	-66.73%	-26.86%
Unfavourable	What you might get back after costs	€7,840	€8,840
	Average return each year	-21.58%	-4.01%
Moderate	What you might get back after costs	€10,250	€10,650
	Average return each year	2.54%	2.12%
Favourable	What you might get back after costs	€13,960	€13,290
	Average return each year	39.62%	9.93%

For "Average return each year"- This type of scenario occurred for an investment between fund inception to the last update. While based on actual performance during this period, it was in exceptional circumstances that are not likely to be repeated in the foreseeable future either in Stress, Unfavourable, Moderate or Favourable environment.

What happens if Bridge Fund Management Limited is unable to pay out?

For the protection of investors the Fund’s assets are held by an independent depository, so the Fund's ability to pay out would not be affected by the insolvency of Bridge Fund Management Limited. If the Fund is terminated or wound up, the assets will be liquidated, and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. There is no compensation scheme protecting you from this scenario.

What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed that the product performs as shown in the moderate scenario and EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	€531	€1,224
Annual cost impact (*)	5.2%	3.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.0% before costs and 2.1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 2%. This is the maximum percentage which might be deducted from your subscription to the Sub-Fund. In some cases, you might pay less. You can find out the actual entry and exit charges from your financial adviser or distributor. The entry charges are deducted before your capital is invested.	Up to €200
Exit costs	Not Applicable	€0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	This figure may vary from year to year. The ongoing charges figure shown does not include transaction costs incurred when the Sub-Fund buys or sells assets.	€175
Transaction costs	1.51% of the value of your investment per year. The impact of the costs of us buying and selling underlying investments for the product.	€156
Incidental costs taken under specific conditions		
Performance fees	Not Applicable	€0

How long should I hold it and can I take money out early?

Recommended holding period: 3 years.

The Fund has daily liquidity. The Fund has no minimum required holding period. Please refer to section 'redemption of units' in the Prospectus for details on limits and conditions. The recommended holding period of the Fund assumes the Fund being the sole or majority holding of the investor. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile. The Fund is not intended for short term speculation purposes.

How can I complain?

As a unitholder in the Fund, you are entitled to make a complaint free of charge. Any such complaint must be handled by the manager of the Trust promptly and effectively. Please send complaints to Bridge Fund Management Limited (complianceteam@bridgefundservices.com). You also have the right to refer the relevant complaint to the Financial Services and Pensions Ombudsman after following the Fund's complaints process if you are still not satisfied with the response received. Further information on the complaints policy relating to the Fund is available by emailing: marco@gavekal.com
