This Product is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier. Further information is available on the Management Company's website: www.dnca-investments.com. Key Information Document production date: 05/08/2024.

What is this product?

TYPE

This Product is a sub-fund of DNCA Invest SICAV, an investment company with variable capital regulated by Luxembourg law and qualifying as UCITS pursuant to Directive 2009/65/CE.

TERM

The Product is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

OBJECTIVES

The Product seeks to outperform the following index: Stoxx Europe 600 Net Return, over the recommend investment term. Investors' attention is drawn by the fact that the management style is discretionary and integrates environmental, social / societal and governance (ESG) criteria.

The Product will at all times invest at least two-thirds of its total assets in equities of issuers having their registered office in Europe or exercising the preponderant part of their economic activities in Europe. The Product's investment strategy relies on a active discretionary management using a stock picking policy. The main investment criteria of this policy are the market assessment, the issuer's financial structure, the current and forecast yield rate, management quality and the issuer's market position. The investment sectors targeted by the Management Company are not restricted, including with regard to new technology stocks. In addition, the Product is managed taking into consideration responsible and sustainable principles. In this way, the investment process and resulting stock picking take into account internal scoring with respect to the corporate responsibility of companies based on an extra-financial analysis through a proprietary tool developed internally by the Management Company, with the "best in universe" method. There may be a sector bias. The risk exists that the models used to make these investment decisions do not perform the tasks they were designed to. This extra-financial analysis is made on at least 90% of the Product's net assets, and results in the exclusion of at least 20% of the worst issuers of shares from its investment universe. The Product benefits from the French SRI Label. The Product will invest at any time within the following limits its net assets in:

- European Equities or related financial derivatives instruments (such as CFD or DPS): 75% to 100%;
- Non-European equities: 0% to 25%;
- Debt instruments including money market instruments in case of adverse market conditions: up to 25%;
- Other instruments: 0 to 25%;
- Up to 10% in units and/or shares of UCITS and/or AIFs.

The Product may invest in securities denominated in any currency. However non-base currency exposure may be hedged back to the base currency to moderate currency exchange risks. More specifically, futures and currency forwards may be used for that purposes.

Exchange traded or OTC derivatives (other than CFD and DPS) can represent up to 40% of the Product's assets, including but not limited to, futures contracts and non complex options negotiated on regulated markets for the purpose of hedging or increasing equity exposure without seeking overexposure.

The Product is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Management Company is taking investment decisions with the intention of achieving the Product's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

This is an accumulation share.

INTENDED RETAIL INVESTORS

The Product is intended for retail investors who have no financial knowledge or experience of the financial sector. The Product is intended for investors who can withstand capital losses and who do not require a capital guarantee.

OTHER INFORMATION

The Depositary is BNP Paribas, Luxembourg Branch.

The Product is eligible to the French *Plan d'Epargne en Actions (PEA)*.

The NAV is available on the website: www.dnca-investments.com.

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Product lie in the possibility of depreciation of the securities in which the Product is invested.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances. What you get will depend on market trends and how long you keep the Product.

Recommended holding period: Example investment	5 years EUR 10 000		
		If you exit after 1 year	If you exit after 5 years

SCENARIOS

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	EUR 7 070 -29.3%	EUR 1 770 -29.2%
Unfavourable	What you might get back after costs Average return each year	EUR 7 410 -25.9%	EUR 7 270 -6.2%
Moderate	What you might get back after costs Average return each year	EUR 10 540 5.4%	EUR 11 550 2.9%
Favourable	What you might get back after costs Average return each year	EUR 14 730 47.3%	EUR 15 580 9.3%

- The unfavourable scenario occurred for an investment in the Product between March 2015 and March 2020.
- The moderate scenario occurred for an investment in the Product between January 2015 and January 2020.
- The favourable scenario occurred for an investment in the Product between May 2019 and May 2024.

What happens if DNCA Finance is unable to pay out?

The Product is a co-ownership of financial instruments and deposits separate from DNCA Finance. In the event of the default of DNCA Finance, the assets of the Product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the Product is mitigated due to the legal segregation of the depositary's assets from those of the Product.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 314	EUR 904
Annual cost impact (*)	3.1%	1.6% each year

* The annual cost impact illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 4.5% before costs and 2.9% after costs.

We may share part of costs with the person selling you the Product to cover the services they provide to you. These figures include the maximum distribution fee and which amount of 100% of costs. This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 2.00% of the amount you pay in when entering this Investment. This is the most you will be charged. The person selling you the Product will inform you of the actual charge.	Up to EUR 200
Exit costs	We do not charge an exit fee for this Product.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.07% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 107
Transaction costs	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	EUR 7
Incidental costs taken under specific conditions		
Performance fees	20.00% of the positive performance net of any fees above STOXX EUROPE 600 net return with High Water Mark. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EURO

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years.

Shareholders may redeem shares on demand and executed on each NAV calculation and publication day before 12.00 noon (Luxembourg time).

The recommended holding period was chosen depending on the asset class, investment strategy and risk profile of the Product, to enable it to achieve its investment objective while minimizing the risk of loss.

You can redeem all or part of your investment at any time before the end of the recommended holding period, or hold it longer. There are no penalties for early divestment. However, if you request redemption before the end of the recommended holding period, you may receive less than expected.

The Product has a redemption capping system known as «Gates» described in the prospectus.

How can I complain?

If you have any complaints about the Product, you can send a written request with a description of the problem either by e-mail dnca@dnca-investments.com or to the following address: DNCA Finance, 19 Place Vendôme, 75001 Paris.

Other relevant information

The Product promotes environmental or social and governance (ESG) criteria within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability reporting in the financial services sector ("SFDR Regulation").

The Product's prospectus and the latest key information document, as well as the latest annual report and information on past performance, can be obtained free of charge from the website of the manufacturer: www.dnca-investments.com.

When this Product is used as a unit-linked carrier in a life insurance or capitalization contract, additional information on this contract, such as the costs of the contract, which are not included in the costs indicated in this document, the contract in the event of a claim and what happens in the event of default by the insurance company, are presented in the key information document for this contract, which must be provided by your insurer or broker or any other insurance intermediary in accordance with its legal obligation.
