## What is this product?

### TYPE OF PRODUCT

The product is a sub-fund of Capitalatwork Foyer Umbrella, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. The Board of Directors may liquidate the Fund at any time.

### OBJECTIVES

This sub-fund shall consist mainly of fixed-income transferable securities, such as fixed and/or floating rate bonds and convertible bonds, issued by issuers of any nationality and denominated in any currency.

Investments in fixed-income transferable securities may not exceed 50% of the sub-fund's net assets. Investments in variable income securities, such as equities and warrants on securities, may not in principle exceed 25% of the sub-fund's net assets.

The Sub-fund may either invest directly in the fixed or variable income transferable securities described above or indirectly through other UCIs. It may also invest over 10% of its assets in securities to be issued or issued by one or more sub-funds of this SICAV.

The sub-fund may invest a maximum of 10% of its assets in contingent convertible bonds.

The sub-fund may use term deposits within the meaning of article 41(1) of the Law of 17 December 2010, up to 20% of its net assets, in order to optimise its cash management.

The holding of such ancillary liquid assets will be limited to 20% of the net assets of the sub-fund. The above-mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

Assets subject to securities lending transactions are not expected to exceed 30% of the sub-fund's net asset value. Assets subject to securities lending transactions may not exceed 70% of the sub-fund's net asset value. This maximum may not be exceeded under any circumstances.

The sub-fund is actively managed; Investment Managers can choose the composition of the portfolio but must adhere to the investment policy and objectives.

The investments underlying this sub-fund do not take into account the European Union's criteria for environmentally sustainable economic activities.

This sub-fund has been classified as compliant with article 6 of the SFDR.

This is not a distribution unit class. All income from the Fund's investments is reinvested and incorporated into the value of your units.

### INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

### OTHER INFORMATION

The Depository is CACEIS Investor Services Bank S.A..

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>3 years</b>		
<b>Example investment</b>		<b>EUR 10 000</b>		
		<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>	
<b>Scenarios</b>				
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>			
<b>Stress scenario</b>	<b>What you might get back after costs</b>	EUR 7 780	EUR 7 810	
	Average return each year	-22.2%	-7.9%	
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	EUR 9 200	EUR 9 460	This type of scenario occurred for an investment in the product between December 2021 and June 2023.
	Average return each year	-8.0%	-1.8%	
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	EUR 10 210	EUR 10 830	This type of scenario occurred for an investment in the product between November 2016 and November 2019.
	Average return each year	2.1%	2.7%	
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	EUR 11 420	EUR 12 340	This type of scenario occurred for an investment in the product between December 2018 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if CapitalatWork Foyer Group S.A. is unable to pay out?

CapitalatWork Foyer Group S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from CapitalatWork Foyer Group S.A.

The Sub-Fund's assets are held with CACEIS Investor Services Bank S.A. and are segregated from the assets of other sub-funds of the SICAV. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

<b>Investment of EUR 10 000</b>	<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>
<b>Total costs</b>	EUR 237	EUR 553
<b>Annual cost impact (*)</b>	2.4%	1.7%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.4% before costs and 2.7% after costs.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 1.00% of the amount you pay in when entering this investment.	Up to EUR 100
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.00% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 100
Transaction costs	0.23% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 23
Incidental costs taken under specific conditions		
Performance fees	5% on the performance exceeding the annual target rate of return of 1.25 % ("hurdle rate") on the condition that the net asset value of the share class is higher than the net asset value used to calculate the last performance fee ("high watermark"). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 14

## How long should I hold it and can I take my money out early?

### Recommended holding period (RHP): 3 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

Redemptions are possible at any time and without limitation. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 3 p.m (Central European time) on one (1) Business Day (any bank business day in Luxembourg) preceding the relevant calculation day of the NAV. Redemption proceeds shall be paid in the relevant reference currency usually within two (2) Business Days following the relevant calculation day of the NAV.

## How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
