What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

Objectives

The sub-fund's main objective is to achieve a long-term capital appreciation by selecting stocks within Israel's IT-Security sector based on quantitative models. The strategy will then overweight those stocks within a large and diversified basket of global IT security stocks. The sub-fund aims to maximize the increase in value of the portfolio with agile response to the Israel, London and US markets.

In order to achieve its investment objective, the sub-fund will mainly invest in Israeli related tech stocks and global cyber-security stocks and will overweight the equities related to the IT security sector within a portfolio of global technology stocks in accordance with Annex 1 - General Investment Restrictions of the Prospectus.

The sub-fund will invest (up to 100% of its net assets) in equities mainly listed on the US, London and Israel markets.

The quantitative models used by the Manager aim to achieve the investment objective through a dynamic risk protection process, which increases allocation to low risk money markets during periods of high risk, as well as dynamically allocating to the best performing equities.

The sub-fund may use financial derivative instruments for hedging and investment purposes, in accordance with Annex 1 - Financial Techniques and Instruments of the Prospectus. Investment in non-reference currency financial instruments is allowed provided by the currency exposure is hedged. There is however, no guarantee or assurance that such coverage will be effective.

If the Manager considers this to be in the best interest of the Shareholders, the sub-fund may also, hold up to 100% of its net assets in liquidities, such as

cash deposits, money market UCITS and UCIs. However, the sub-fund shall not invest more than 10% of its net assets in UCITS and/or UCIs.

Subject to these constraints, the various types of eligible financial assets as well as the limits and conditions applying to holdings of such assets are specified in Annex 1 of the Prospectus.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This investment vehicle is suitable for retail and institutional investors.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Counterparty risk, liquidity risk, emerging market risk, operational risk, credit risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 5 years

Example investment: 10,000 EUR

		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1,310 EUR	1,220 EUR
	Average return each year	-86.9 %	-34.3 %
Unfavourable	What you might get back after costs	6,580 EUR	8,320 EUR
	Average return each year	-34.2 %	-3.6 %
Moderate	What you might get back after costs	10,720 EUR	14,230 EUR
	Average return each year	7.2 %	7.3 %
Favourable	What you might get back after costs	14,460 EUR	23,470 EUR
	Average return each year	44.6 %	18.6 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment be-

tween August 2021 and December 2023.

Moderate scenario: This type of scenario occurred for an investment between June 2015 and June 2020, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between January 2016 and January 2021, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Selective Thematic Funds is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary UBS Europe SE, Luxembourg Branch. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	312 EUR	2,200 EUR
Annual cost impact (*)	3.1 %	3.1 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.5% before costs and 7.3% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
