Competent Authority:	The Commission de Surveillance du Secteur Financier (CSSF) is in charge of the control of Candriam with regard to this key information document. . This product is authorised in Luxembourg. Candriam is approved in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This key information document is valid as at 2025-03-01.

WHAT IS THIS PRODUCT?

Type: This product is a share class (I) of a sub-fund (Money Market Euro) of an investment company with variable capital (SICAV) under Luxembourg law (Candriam Sustainable), Undertakings for Collective Investment in Transferable Securities (UCITS).

Term: Open-ended.

Objectives:

Classification: Fonds monétaire standard à valeur liquidative variable.

Principal assets traded:

Money market instruments denominated in euro and/or in currencies of countries members of the Organization for Economic Co-operation and Development (OECD) and issued by all types of issuers rated at least A2/P2 (or equivalent) by one of the rating agencies (i.e. reputedly good quality issuers).

Bonds denominated in euro and/or in currencies of countries members of the OECD with a maximum residual maturity of less than 397 days or with an interest rate which is at least revised annually and issued by any type of issuers of the same quality.

Deposits.

Investment strategy:

The fund seeks to achieve capital growth, associated with a low risk level, by investing in the principal assets traded, and to outperform the benchmark.

The management team makes discretionary investment choices on the basis of an economic/financial analysis process as well as on a Candriam's proprietary analysis of Environmental, Social and Governance (ESG) considerations, both indicative of risks and long-term opportunities.

The duration (Weighted Average Maturity - WAM), i.e. the sensitivity of funds to changes in interest rates, will not exceed 6 months and the weighted average life of funds (Weighted Average Life - WAL) will not exceed 12 months. The fund's sustainable investment objective is to contribute to reducing greenhouse gas emissions through specific targets as well as the integration of climate related indicators in issuer and securities analysis. The fund also aims to have long-term positive impact on environment and social objectives. More specifically the fund aims to have a carbon footprint below a determined absolute threshold (for corporate issuers). This threshold has been set at around 30% lower than the investment universe and it can be reviewed depending on the evolution of the investment universe. In addition, corporate and sovereign issuers are assessed based on a proprietary ESG analysis and assigned a score, with the aim of keeping the average weighted ESG score of the fund's portfolio above a predetermined threshold.

To achieve these objectives the fund implements a combination of positive selection of the best issuers based on ESG criteria, exclusion of issuers detrimental to these objectives or deemed to prone to controversies.

Issuers are subject to a two-pronged analysis considering how issuers activities contribute to achieving sustainable objectives on the one hand, and how issuers' operations and policies align with the interests of their key stakeholders on the other hand.

The result of this analysis forms the basis to define the investable universe and guide fund managers in their portfolio construction. Whenever the fund invests in securities issued by sovereign issuers, these issuers are also selected based on their ESG ranking assessed through a proprietary analysis of their human, social, natural and economic capital management.

This analysis is enriched by the results of dialogs led with issuers.

This investment approach will cause the fund to avoid certain issuers due to their poor ESG quality or contribution to attaining sustainability objectives.

Whilst the manager believes that such issuers are likely to lose out to more sustainable ones over the long term, market volatility and short term market trends could result in such issuers outperforming more sustainable ones over shorter periods.

The fund has not filed for the French SRI Label.

For further information, please refer to Candriam's website and/or the prospectus.

The fund may also use derivative products for hedging purposes (taking protection against unfavourable future financial events).

Benchmark: €STR (Euro Short Term Rate) Capitalized.

The fund is actively managed and the investment approach implies a reference to a benchmark.

Benchmark definition: €STR reflects the wholesale euro unsecured overnight borrowing costs of banks located in the euro area.

Use of the benchmark:

- for performance comparison.

- for performance fees calculation for certain share classes if applicable.

Redemption of shares: On request, every day, in Luxembourg.

Allocation of income: Reinvestment.

Intended retail investor:

This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience who are looking for Capital Preservation. This product can be used as a core holding or a component of a diversified portfolio for investments with an investment horizon of 0.25 years. Investors should understand the product risks and only invest if they can bear a limited level of losses on the initial investment.

General information:

Depository bank: CACEIS Bank, Luxembourg Branch.

Other information:

This document provides a description of a share class of a sub-fund of Candriam Sustainable. The prospectus and periodical reports are established for all the sub-funds. There are other share classes and these are listed in the prospectus.

Investors may apply for the conversion of their shares into shares of another class of the same sub-fund or into shares of a class of another sub-fund of the fund, based on the eligibility criteria and following the procedures available through their financial intermediary.

The sub-fund is only liable for the debts, liabilities and obligations that can be charged to it.

Additional information about the fund can be found in the prospectus and the periodical reports, which may be obtained free of charge on request from Candriam or viewed at any time on the website www.candriam.com. These documents are available in one of the languages approved by the local authority of each country where the fund is authorised to market its shares or in a common language in the international finance sphere. All other practical information, in particular the latest share price, is available from the places shown above.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 0.25 year. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 1 out of 7, which is the lowest risk class.

This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact the capacity to pay you.

Other risk(s) materially relevant not included in the summary risk indicator: Credit. Counterparty. Derivatives.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and/or a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 01/2020 and 04/2020.

Moderate: This type of scenario occurred for an investment between 01/2017 and 04/2017.

Favourable: This type of scenario occurred for an investment between 02/2024 and 05/2024.

Recommended holding period: Example Investment:		0.25 year 10 000 EUR
		If you exit after 0.25 year
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	<i>What you might get back after costs</i>	9 970 EUR
	Average return each year	- 0.28%
Unfavourable	<i>What you might get back after costs</i>	9 970 EUR
	Average return each year	- 0.28%
Moderate	<i>What you might get back after costs</i>	9 990 EUR
	Average return each year	- 0.09%
Favourable	<i>What you might get back after costs</i>	10 100 EUR
	Average return each year	1.02%

WHAT HAPPENS IF CANDRIAM IS UNABLE TO PAY OUT?

As the Funds' assets are held with the depository, they are not part of the assets of Candriam in case of bankruptcy and cannot be seized by the creditors of Candriam. Nevertheless, investors run the risk to suffer a financial loss in case of the default of Candriam.

In case of default of the depository, the risk of a financial loss is mitigated to some extent as the Fund's assets are legally segregated from the assets of the depository.

The potential financial loss associated with the default of Candriam is not covered by an investor compensation or guarantee scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

	If you exit after 0.25 year
Total costs	6.0 EUR
Cost impact (*)	0.1%

* This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

If the fund is part of another product, such as an insurance product, the costs shown here do not include any additional costs you may incur.

Composition of Costs

One-off costs upon entry or exit		If you exit after 0.25 year
Entry costs	We do not charge any entry fee.	0 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.21% of the value of your investment per year. This is an estimate based on actual costs over the last year.	5 EUR
Transaction costs	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	1 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 0.25 year

The selection of the recommended holding period depends on the underlying investments type as well as the level of associated risk (from high to low risk). For example, "equity" products (with a high level of risk) generally have a recommended holding period of 6 years (long-term period), "bond or money market" products (with a lower risk profile) have a shorter recommended holding period (generally between 2 and 4 years for bonds products or less than 1 year for money market products - medium-term/short-term period). "Mixed" products generally have a recommended holding period between 3 and 5 years, depending on the weight of the underlying instruments type. The recommended holding period for "Alternative-type" products is generally 3 years.

The investor may request for the redemption of its shares, at any time, under the conditions set out in the section "What are the costs?". A decision to shorten your holding period, compared to the recommended one, may increase the impact of potential fees on the performance profile.

HOW CAN I COMPLAIN?

Complaints about this product or about the conduct of the product manufacturer or the person advising on, or selling, the product:

Postal address: Candriam, SERENITY – Bloc B, 19-21, route d'Arlon – L-8009 Strassen
