	This fund is authorised in Luxembourg, under the surveillance of and regulated by the Commission de Surveillance du Secteur Financier (CSSF).
Production date:	2024-05-31

What is this product ?

Type

Goldman Sachs Funds V is an undertaking for collective investment organized under the laws of Luxembourg as a société d'investissement à capital variable (S.I.C.A.V.) and qualifies as a UCITS. Goldman Sachs Funds V is registered pursuant to Part I of the Law of 17 December 2010 and is established as an "umbrella structure" comprised of a number of sub-funds. You are purchasing a class of shares in the sub-fund.

Term

The term of the Fund is unlimited and therefore there is no maturity date. The Manufacturer may not unilaterally terminate the Fund, however, the directors of the Fund and/or the investors of the Fund may in certain circumstances set out in the Prospectus and constitutive document of the Fund, unilaterally terminate the Fund. Cases of automatic termination may be foreseen by laws and regulations applicable to the Fund.

Objectives

The Fund is classified as a financial product under Article 8 of the EU Sustainable Finance Disclosure Regulation. The Fund promotes environmental or social characteristics and has partial sustainable investments as its objective. The Fund integrates ESG factors and risk in the investment process alongside traditional factors. Detailed information on the sustainability related disclosures of the Fund can be found in the Pre-Contractual Document (annex of the prospectus) on <https://www.gsam.com/responsible-investing/en-INT/non-professional/funds/documents>. The fund mainly invests in a diversified portfolio of Eurozone fixed income instruments, including green bonds, denominated in Euro and European stocks from companies and issuers pursuing policies of sustainable development observing environmental, social and governance principles. The equity portfolio has a European investment universe, mainly investing in equities of companies that are part of the MSCI Europe (NR) Index. Within the fixed income portfolio, the corporate bonds portfolio has a European investment universe, mainly investing in bonds of companies that are part of the Bloomberg Euro-Aggregate. At least annually, the equity and corporate bond portfolios' initial investment universes are reduced by at least 20%, as a result of the application of a "Best-in-Universe" approach and the below mentioned exclusions and restrictions. When applying the "Best-in-Universe" approach, the appropriateness of investments in bonds and/or equities are assessed. Issuers that meet the ESG requirements of the Management Company are prioritized and similarly, issuers that do not meet those requirements are not eligible for investment. The ESG requirements in this context are assessed by taking into account, amongst others, the issuer's ESG Rating, economic activities and behavior. The selection process involves both financial analysis and ESG (Environmental, Social and Governance) analysis which may be limited by the quality and availability of the data disclosed by issuers or provided by third parties. Examples of non-financial criteria assessed in the ESG analysis are carbon intensity, gender diversity and remuneration policy. In the selection process, the focus of the analysis is on companies that pursue a policy of sustainable development and that combine the respect of social principles and environmental principles with their focus on financial targets (positive screening). The abovementioned selection process is applied to at least 90% of the equity investments and of the bond investments. As the Sub-Fund may use different criteria for company or issuer analysis and/or a different approach to improve the non-financial indicator compared to the initial investment universe, this may potentially lead to inconsistency between company or issuer selection within the different sub-asset classes of the Sub-Fund. Next to screening out companies with serious and structural issues concerning controversial behaviour we also do not invest in issuers involved in activities including but not limited to, the development, production, maintenance or trade of controversial weapons, the production of tobacco products, thermal coal mining and/or oil sands production. Further, more stringent restrictions are applicable for investments in issuers involved in activities related to gambling, weapons, adult entertainment, fur & specialty leather, Arctic drilling and shale oil & gas. The fund uses active management to respond to changing market conditions by using amongst others fundamental and behavioural analysis resulting in dynamic asset allocations over time. The fund positioning can therefore materially deviate from the benchmark. The fund is actively managed against an investment profile of 50% bonds denominated in Euro and 50% European stocks. Measured over a period of five years we aim to beat the performance of the benchmark composed as follows: 50% MSCI Europe Index (Net), 50% Bloomberg Euro Aggregate. The benchmark is a broad representation of our investment universe. The fund may also include investments into securities that are not part of the benchmark universe. The fund strives to add value via three approaches: (1) Tactical allocation between and within stocks and bonds, (2) Selection based on the analysis of companies and issuers which combine environmental, social (e.g. human rights, non-discrimination, fight against child labor) and governance factors with a financial performance, (3) Decisions aimed at portfolio diversification and risk management. You can sell your participation in this fund on each (working) day on which the value of the units is calculated, which for this fund occurs daily. The fund does not aim to provide you with a dividend. It will reinvest all earnings.

The return of the Portfolio depends on the performance of the Portfolio, which is directly related to the performance of its investments. The risk and reward profile of the Portfolio described in this key information document assumes that you hold your investments in the Portfolio for at least the Recommended Holding Period as set out below under the heading "How long should I hold it and can I take money early out".

Please see the section "How long should I hold it and can I take my money out early?" below for additional details (including restrictions and/or penalties) on the ability to redeem your investment in the Fund.

Intended retail investor

Shares in the Portfolio are suitable for any investor (i) for whom an investment in the Fund does not constitute a complete investment program; (ii) who fully understands and is willing to assume that the Fund has a risk of 3 out of 7, which is a medium-low risk class; (iii) who is neither a U.S. Person nor subscribing for Shares on behalf of one or more U.S. Persons; (iv) who understands that they may not recover any or all of the invested amount and can bear the loss of their entire investment; and (v) who are looking for medium term investment.

Fund depositary: Brown Brothers Harriman (Luxembourg) S.C.A.

Further information: The Prospectus, annual and semi-annual reports are available free of charge in at <https://www.gsam.com/responsible-investing/en-INT/non-professional/funds/documents>.

The prices of the shares/funds will be made public on the website <https://www.gsam.com/responsible-investing>

This Key Investor Information describes a sub-fund of the fund Goldman Sachs Funds V. The prospectus and the periodical reports for the fund are prepared for the entire fund including all its sub-funds. Under Luxembourg Law of 17 December 2010 on Undertakings for Collective investment sub-funds assets and liabilities of the sub-funds of the fund are segregated and may be deemed to be separate entities for the purpose of the relations between investors and may be separately liquidated.

The investor has the right to switch between sub-funds of Goldman Sachs Funds V under specific conditions. More information on these can be found in the prospectus.

What are the risks and what could I get in return ?

Risk-Indicator

The risk indicator assumes you keep the product for 7 year(s). The actual risk can vary significantly if you cash in at an early stage and you may get back less.

- The summary risk indicator is a guide to the level of the risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- Other Material Risks relevant to the Portfolio not included in the summary risk indicator are set out in the Prospectus.
- If the Fund is not able to pay you what is owed, you could lose your entire investment.
- We have classified this Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Fund's capacity to pay you.
- The actual risk can vary significantly if you cash in at an early stage and you may get back less.
- You may not be able to cash in early. You may have to pay significant extra costs to cash in early.
- Be aware of currency risk when the currency of the Fund is different than the official currency of the Member State where the Fund is marketed to you. You will receive payments in a different currency than the official currency of the Member State where the Fund is marketed to you, so the final return you will get depends on the exchange rate between the two currencies. The risk is not considered in the indicator shown above.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 12 years. Markets could develop very differently in the future

Recommended Holding Period: 7 years			
Example Investment: 10,000 EUR			
Scenarios		If you exit after 1 year	If you exit after 7 years (Recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	5,100 EUR	4,410 EUR
	Average return each year	-49,01%	-11,03%
Unfavourable	What you might get back after costs	7,830 EUR	8,930 EUR
	Average return each year	-21,66%	-1,61%
Moderate	What you might get back after costs	10,270 EUR	13,440 EUR
	Average return each year	2,69%	4,32%
Favourable	What you might get back after costs	12,840 EUR	15,720 EUR
	Average return each year	28,42%	6,68%

The stress scenario shows what you might get back in extreme market circumstances.

- Unfavourable: This type of scenario occurred for an investment between 2021-11-22 and 2024-04-30.
- Moderate: This type of scenario occurred for an investment between 2013-06-01 and 2020-06-01.
- Favourable: This type of scenario occurred for an investment between 2012-07-24 and 2019-07-24.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if the Goldman Sachs Asset Management B.V. is unable to pay out ?

You may not face a financial loss due to the default of the Manufacturer. The assets of the Fund are held in safekeeping by its depositary, Brown Brothers Harriman (Luxembourg) S.C.A. (the "Depositary"). In the event of the insolvency of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary). Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs ?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested.

Example Investment: 10,000 EUR	if you cash in after 1 year	if you cash in after 7 years (Recommended holding period)
Total costs	459 EUR	2,041 EUR
Annual cost impact (*)	4,6%	2,1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be:

- 6,45% before costs and
- 4,32% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% (max) of the amount you pay in when entering this Investment.	300 EUR
Exit costs	0.00% of your investment before it is paid out to you.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.45% of the value of your investment per year. This is an estimate based on actual costs over the last year.	147 EUR
Transaction costs	0.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	12 EUR
Incidental costs taken under specific conditions		
Performance fees	0.00% There is no performance fee for this product.	0 EUR

How long should I hold it and can I take the money out early ?

Recommended holding period: 7 year(s).

The Manufacturer considers this to be an appropriate period of time for the Fund to be able to implement its strategy and potentially generate returns. This is not a recommendation to redeem your investment after this time and while longer holding periods allow greater time for the Fund to implement its strategy, the outcome of any holding period with respect to investment returns is not guaranteed. Investors may redeem their shares on any Business Day (as defined in the Prospectus) by giving prior written notice as further described in the Prospectus. Redeeming your shares in the Fund before the recommended holding period may be detrimental in terms of your return and may increase the risks associated with your investment, which may lead to the realisation of a loss.

How can I complain ?

If you choose to invest in the Fund and subsequently have a complaint about it or the conduct of the Manufacturer or any distributor of the Portfolio, you should in the first instance contact the European Shareholder Services Team at Goldman Sachs Asset Management B.V. via email at ess@gs.com, by post Goldman Sachs Asset Management B.V., Prinses Beatrixlaan 35, 2595 AK, The Hague, The Netherlands or by consulting the following website, www.gsam.com/responsible-investing/en-INT/non-professional/about/contact
