This Product is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier. Further information is available on the Management Company's website: www.dnca-investments.com. Key Information Document production date: 05/08/2024.

What is this product?

TYPE

This Product is a sub-fund of DNCA Invest SICAV, an investment company with variable capital regulated by Luxembourg law and qualifying as UCITS pursuant to Directive 2009/65/CE.

TERM

The Product is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

OBJECTIVES

The Product seeks to outperform of the following composite net return index denominated in Euro: 35% MSCI Nordic, 25% DAX, 15% SMI, 15% AEX, 10% MSCI UK TR UK Net Local Currency calculated with dividends net of withholding taxes reinvested, over the recommended investment term. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social / societal and governance (ESG) criteria. The Product meets the criteria for Responsible management. Thus, the process and selection of all the securities in the portfolio take into account an internal evaluation of Corporate Responsibility (shareholder, social, societal, and environmental responsibilities) based on a proprietary financial analysis model. There is a limitation in the rating process due to the reliability of the published data, which depends on the credibility and auditing of companies' extra-financial reports. The Management Company implements a "best in universe" approach aimed at selecting the highest-rated issuers from an extra-financial perspective within their investment universe, regardless of their sector of activity, resulting in a reduction of the initial universe by at least 20%. The extra-financial analysis is conducted on at least 90% of the assets in the portfolio. The Product is managed taking into consideration the requirements of the French SRI label.

The Product will invest at all times at least 90% of its total assets in equities of issuers listed on North European stock exchanges (Britain, Ireland, Benelux, Norway, Sweden, Finland, Denmark, Germany, Swiss, Austria) in all market capitalisation or exercising the preponderant part of their economic activities in North Europe. The selection process carried out by the Management Company is based on picking stocks according to their intrinsic worth (an in-depth analysis of fundamentals is conducted in-house) as opposed to a mere replication of the composition of the benchmark index.

Additional information on SRI strategy may be obtained in the prospectus of the Product.

The Product may at any time invest in:

- Equities of issuers having their registered office in the North Europe: from 80% to 100% of its net assets;
- Equities outside the North Europe: from 0% to 10% of its net assets;
- Equities with total market capitalisation below 200 million EUR up to 10% of its net assets;
- Fixed income securities and money market instruments or deposits if market conditions are unfavourable: from 0% to 10% of its net assets;
- Other financial instruments up to 10% of its net assets.

Exposure to exchange risk may reach 100% of the Product's net assets.

Investment in "speculative grade" or non-rated debt securities (i.e. which have a Standard & Poor's rating below A-3 short term rating or BBB- long-term rating or equivalent) may not exceed 10% of its net assets. Investment in units and or shares of UCITS and/or other UCIs is limited to 10% of the Product's net assets.

Futures and currency forward may be used for purpose of hedging exchange currency risk. The Product may not invest in other derivatives or any other financial derivative instruments.

The Product is eligible to the PEA (French equity savings plan).

The Product is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Management Company is taking investment decisions with the intention of achieving the Product's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

This is an accumulation share.

INTENDED RETAIL INVESTORS

The Product is intended for retail investors who have no financial knowledge or experience of the financial sector. The Product is intended for investors who can withstand capital losses and who do not require a capital guarantee.

OTHER INFORMATION

The Depositary is BNP Paribas, Luxembourg Branch.

The Product is eligible to the French *Plan d'Epargne en Actions (PEA)*.

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Product lie in the possibility of depreciation of the securities in which the Product is invested.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances. The stress scenario shows what you might get back in extreme market circumstances. What you get will depend on market trends and how long you keep the Product.

Recommended holding period:

SCENARIOS

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	EUR 6310 -36.9%	EUR 2280 -25.6%
Unfavourable	What you might get back after costs Average return each year	EUR 6720 -32.8%	EUR 8520 -3.2%
Moderate	What you might get back after costs Average return each year	EUR 10850 8.5%	EUR 16470 10.5%
Favourable	What you might get back after costs Average return each year	EUR 16180 61.8%	EUR 26260 21.3%

- The unfavourable occurred for an investment in the Product between December 2021 and June 2024.
- The moderate occurred for an investment in the proxy then the Product between November 2015 and November 2020.
- The favourable occurred for an investment in the proxy then the Product between October 2016 and October 2021.

What happens if DNCA Finance is unable to pay out?

The Product is a co-ownership of financial instruments and deposits separate from DNCA Finance. In the event of the default of DNCA Finance, the assets of the Product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the Product is mitigated due to the legal segregation of the depositary's assets from those of the Product.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000

If you exit after 1 year If you exit after 5 years

Total costs	EUR 471	EUR 2503
Annual cost impact (*)	4.7%	3.2% each year

* The annual cost impact illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 13.7% before costs and 10.5% after costs.

We may share part of costs with the person selling you the Product to cover the services they provide to you. These figures include the maximum distribution fee and which amount of 100% of costs. This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 2.00% of the amount you pay in when entering this Investment. This is the most you will be charged. The person selling you the Product will inform you of the actual charge.	Up to EUR 200
Exit costs	We do not charge an exit fee for this Product.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.17% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 117
Transaction costs	0.04% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	EUR 4
Incidental costs taken under specific conditions		
Performance fees	20.00% of the positive performance net of any fees above 35% MSCI Nordic + 25% DAX + 15% SMI + 15% AEX + 10% MSCI UK TR UK Net Local Currency. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 150

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years.

Shareholders may redeem shares on demand and executed on each NAV calculation and publication day before 12.00 noon (Luxembourg time).

The recommended holding period was chosen depending on the asset class, investment strategy and risk profile of the Product, to enable it to achieve its investment objective while minimizing the risk of loss.

You can redeem all or part of your investment at any time before the end of the recommended holding period, or hold it longer. There are no penalties for early divestment. However, if you request redemption before the end of the recommended holding period, you may receive less than expected.

The Product has a redemption capping system known as « Gates » described in the prospectus.

How can I complain?

If you have any complaints about the Product, you can send a written request with a description of the problem either by e-mail dnca@dnca-investments.com or to the following address: DNCA Finance, 19 Place Vendôme, 75001 Paris.
