Competent Authority: The Commission de Surveillance du Secteur Financier is responsible for supervising the manufacturer in relation to this Key Information Document.

Date of production 31/01/2024

What is this product?

Type

This product is a sub-fund of the fund FFG constituted in the form of a variable capital investment company with multiple sub-funds under Luxembourg law subject to Part I of the Luxembourg law of 17 December 2010 on undertakings for collective investment.

Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

Objectives

The sub-fund will seek long-term capital appreciation through a diversified portfolio of European equities.

In addition to its financial objective, the sub-fund generates a tangible social impact, through the intermediary of the Distribution Coordinator (Funds For Good) of the SICAV. Funds For Good pays out either 50% of its net profits or 10% of its turnover (whichever amount is higher) to Funds For Good Impact, which devotes all of its financial resources to the fight against poverty and the creation of jobs by allocating honorary loans and support to disadvantaged people with a business plan, thus enabling them to launch their activity.

The sub-fund will seek long-term capital appreciation by investing mainly in shares of European issuers listed and traded on regulated markets. The following are also authorised: rights issued by a company allowing holders to subscribe to additional securities issued by that company, warrants, convertible securities and preferred shares, if issued by companies whose common shares are listed or traded on regulated markets, certificates of deposit.

In order to achieve its objective, the sub-fund may invest a maximum of 10% of its net assets in UCITS and other UCIs (including Exchange Traded Funds (ETFs) that are comparable to UCITS and/or UCIs and are subject to supervision considered to be equivalent by the CSSF). The sub-fund will not invest more than 5% of its net assets in warrants.

The sub-fund may also use derivatives (such as equity index futures, bond futures, forward exchange contracts on convertible or non-convertible currencies, options traded on regulated markets, swaps, swaptions, contracts for differences, credit default swaps) to hedge or optimise portfolio exposure. It is intended that the sub-fund will be managed in order to operate under normal circumstances with long-term exposure only.

It should be noted that in a Master/Feeder structure the sub-fund of the same SICAV FFG European Equities Sustainable Moderate will be the Feeder of this sub-fund, which is considered as the Master in this context.

Environmental, social and governance criteria: The sub-fund promotes environmental attributes and/or social benefits within the meaning of Article 8 of the Sustainability Regulation. The selection of assets or UCITS or other UCIs making up the sub-fund's portfolio will comply with the Responsible Investment Policy of Funds For Good, which is available in full at www.fundsforgood.eu. This policy notably covers the following aspects:

1. The removal of a series of companies from its investment universe in accordance with the criteria relating to international treaties and to controversial sectors or activities;

2. The environmental (including a 50% reduction in carbon emissions of the equity portion of the portfolio compared to a benchmark equity universe), social or corporate governance criteria of companies in the portfolio;

3. A "Best-in-Universe" policy.

The sub-fund does not take into account the European Union criteria for environmentally sustainable economic activities as defined in the Taxonomy Regulation. The alignment of the sub-fund with the Taxonomy Regulation is not calculated.

Benchmark: The sub-fund's benchmark is the Morgan Stanley Capital International Europe Index (the MSCI Europe index) over periods of several years, which it will seek to outperform. The benchmark index is only used for comparing performance. The sub-fund is actively managed and is in no way limited by the components of the benchmark index in the positioning of their portfolio. The sub-fund may not hold all, if any, of the components of the benchmark index in question.

Intended retail investor

This product is intended for investors seeking income and capital growth with a long term perspective (at least 3 years).

Other information

Depository: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information:

Additional information about the feeder fund and the master fund, copies of their prospectuses, their latest annual and semi-annual report and the latest prices of shares of FFG may be obtained free of charge from the registered office of the Management Company or at <https://funds.waystone.com/public>.

The prospectus, the latest annual and semi-annual report of the feeder fund and the master fund are available in French. The Management Company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2018 and this share class in 2019.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money

because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: equity issuer risk, political, financial, fiscal instabilities risks, credit risk, counterparty risk, the risk of the share market, other risk factors

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 3 years

Example investment: 10,000 EUR

		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1,920 EUR	2,930 EUR
	Average return each year	-80.8 %	-33.6 %
Unfavourable	What you might get back after costs	7,610 EUR	8,060 EUR
	Average return each year	-23.9 %	-6.9 %
Moderate	What you might get back after costs	9,870 EUR	11,270 EUR
	Average return each year	-1.2 %	4.0 %
Favourable	What you might get back after costs	14,120 EUR	14,250 EUR
	Average return each year	41.2 %	12.5 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment be-

tween March 2017 and March 2020, by referring to a benchmark.

Moderate scenario: This type of scenario occurred for an investment between September 2016 and September 2019, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between December 2018 and December 2021, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Waystone Management Company (Lux) S.A. is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	559 EUR	1,228 EUR
Annual cost impact (*)	5.6 %	3.6 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.7% before costs and 4.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the product may charge (1.2% of amount invested / 115 EUR). This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 300 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.2% of the value of your investment per year. This is an estimate based on actual costs over the last year.	216 EUR
Transaction costs	0.4% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	43 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

The conversion of part or all of the shares is free of charge.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

You should be prepared to stay invested for 3 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

You may send any claims or complaints to the fund management company as indicated on www.waystone.com/waystone-policies/ or to the following postal address: 19, rue de Bitbourg, L-1273 Luxembourg or by email at complaintsLUX@waystone.com.

Other relevant information

The prospectus, the latest version of the Key Information Document as well as the latest annual and semi-annual report, may be obtained free of charge on funds.waystone.com/public.

Past performance and previous performance scenarios: Historical returns for the last 4 years and previously published performance scenarios, updated on a monthly basis, are available on <https://www.yourpriips.eu/site/68940/en>.

Where this product is used as the support for a unit-linked life insurance or capitalisation policy, additional information on this policy, such as the costs of the contract, which are not included in the costs set out in this document, how to submit a claim and what happens if the insurance company defaults, is set out in the key information document for this policy, which must be provided by your insurer or broker or any other insurance intermediary in accordance with its legal obligations.
