## What is this product?

### TYPE

This Product is a sub-fund of DNCA Invest SICAV, an investment company with variable capital regulated by Luxembourg law and qualifying as UCITS pursuant to Directive 2009/65/CE.

### TERM

The Product is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

### OBJECTIVES

The Product seeks to outperform of the following index denominated in Euro: Euro Stoxx NR (Bloomberg ticker: SXXT Index) calculated with dividends net of withholding taxes reinvested, over the recommend investment term. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social/ societal and governance (ESG) criteria.

The Products philosophy is particularly to focus on companies that have a strong social and/or environmental impact. This impact is evaluated through their exposure (in terms of turnover, R&D expenses or capex) via the proprietary model of the Investment Manager. The impacts are based on five long term transitions: economic transition, life style transition, medical transition, demographic transition and energy transition. The Product is managed taking into consideration Responsible and Sustainable principles and has as its objective sustainable investment within the meaning of Article 9 of SFDR. The investment process take into account internal scoring based on an extra-financial analysis through a proprietary rating model (ABA, Above & Beyond Analysis) developed internally by DNCA. The risk exists that the models used to make these investment decisions do not perform the tasks they were designed to. The use of the proprietary tool relies on the experience, relationships and expertise of DNCA with the "best in universe" method. There may be a sector bias. The Product will proceed to the extra-financial analysis on at least 90% of its securities, while excluding 20% of the worst issuers from its investment universe. The Product is managed taking into consideration responsible and sustainable principles and aims to be target issuers with a significantly exposure of percentage of their revenues to the 17 Sustainable Development Goals of the United Nations. The investment strategy is geared towards low carbon economy which leads to a lower portfolio's carbon footprint than the Euro Stoxx NR. Additional information on SRI strategy may be obtained in the prospectus of the Product. Besides, the Investment Manager's conviction is to finance the economy based on a long term perspective which results in the identification of sustainability related thematic. The investment process is based on the following three stages: (i) exclusion of companies with high corporate responsibility risks, (ii) selection of issuers and companies identified to meet the Product's sustainable strategy) and (iii) build the portfolio pursuant to a fundamental analysis, the liquidity and the valuation of the companies considered.

The Product may at any time invest in:

- Equities of issuers having their registered office in the Euro zone: from 65% to 100% of its net assets;
- Equities outside the Euro zone: from 0% to 35% of its net assets;
- Equities with total market capitalisation below 200 million euros up to 10% of its net assets;
- Fixed income securities and money market instruments or deposits if market conditions are unfavourable: from 0% to 25% of its net assets;
- Other financial instruments up to 10% of its net assets.

Exposure to exchange risk may reach 35% of the Product's net assets.

The Product may invest up to 10% of its net assets in units and/or shares of UCITS and/or AIFs.

Investment in "speculative grade" or non-rated debt securities (i.e. which have a Standard & Poor's rating below A-3 short term rating or BBB- long-term rating or equivalent with a minimum rating of CCC) may not exceed 25% of its net assets.

The Product may invest in securities denominated in any currency. However non-base currency exposure may be hedged back to the base currency to moderate currency exchange risks. More specifically, futures and currency forwards may be used for that purposes.

The Product may use exchange traded or OTC derivatives up to 25% of the Product's net assets, including but not limited to, futures contracts and non-complex options negotiated on regulated markets for the purpose of hedging equity exposure without seeking overexposure.

The Product is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Management Company is taking investment decisions with the intention of achieving the Product's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

This is an accumulation share.

### INTENDED RETAIL INVESTORS

The Product is intended for retail investors who have no financial knowledge or experience of the financial sector. The Product is intended for investors who can withstand capital losses and who do not require a capital guarantee.

### OTHER INFORMATION

## What are the risks and what could I get in return?

### RISK INDICATOR

#### Lower risk

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Product lie in the possibility of depreciation of the securities in which the Product is invested.

### PERFORMANCE SCENARIOS

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances. What you get will depend on market trends and how long you keep the Product.

Recommended holding period:  
Example investment

5 years  
EUR 10 000

If you exit after  
1 year

If you exit after  
5 years

#### SCENARIOS

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	<b>What you might get back after costs</b>	EUR 6 850	EUR 2 690
	Average return each year	-31.5%	-23.1%
Unfavourable	<b>What you might get back after costs</b>	EUR 8 160	EUR 10 080
	Average return each year	-18.4%	0.2%
Moderate	<b>What you might get back after costs</b>	EUR 10 730	EUR 13 690
	Average return each year	7.3%	6.5%
Favourable	<b>What you might get back after costs</b>	EUR 13 170	EUR 17 400
	Average return each year	31.7%	11.7%

- The unfavourable scenario occurred for an investment in the Product between December 2021 and June 2024.
- The moderate scenario occurred for an investment in the proxy then the Product between July 2017 and July 2022.
- The favourable scenario occurred for an investment in the proxy then the Product between August 2016 and August 2021.

## What happens if DNCA Finance is unable to pay out?

The Product is a co-ownership of financial instruments and deposits separate from DNCA Finance. In the event of the default of DNCA Finance, the assets of the Product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the Product is mitigated due to the legal segregation of the depositary's assets from those of the Product.

## What are the costs?

**The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.**

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	EUR 366	EUR 1405
<b>Annual cost impact (*)</b>	3.7%	2.1% each year

\* The annual cost impact illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 8.6% before costs and 6.5% after costs.

We may share part of costs with the person selling you the Product to cover the services they provide to you. These figures include the maximum distribution fee and which amount of 100% of costs. This person will inform you of the actual distribution fee.

## COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 2.00% of the amount you pay in when entering this Investment. This is the most you will be charged. The person selling you the Product will inform you of the actual charge.	Up to EUR 200
Exit costs	We do not charge an exit fee for this Product.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.18% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 118
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	EUR 2
Incidental costs taken under specific conditions		
Performance fees	20.00% of the positive performance net of any fee above the index Euro Stoxx Net Return with High Water Mark. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 46

## How long should I hold it and can I take my money out early?

### Recommended holding period: 5 years.

Shareholders may redeem shares on demand and executed on each NAV calculation and publication day before 12.00 noon (Luxembourg time).

The recommended holding period was chosen depending on the asset class, investment strategy and risk profile of the Product, to enable it to achieve its investment objective while minimizing the risk of loss.

You can redeem all or part of your investment at any time before the end of the recommended holding period, or hold it longer. There are no penalties for early divestment. However, if you request redemption before the end of the recommended holding period, you may receive less than expected.

The Product has a redemption capping system known as « Gates » described in the prospectus.

## How can I complain?

If you have any complaints about the Product, you can send a written request with a description of the problem either by e-mail [dnca@dnca-investments.com](mailto:dnca@dnca-investments.com) or to the following address: DNCA Finance, 19 Place Vendôme, 75001 Paris.

## Other relevant information

The Product promotes environmental or social and governance (ESG) criteria within the meaning of Article 9 of Regulation (EU) 2019/2088 on sustainability reporting in the financial services sector ("SFDR Regulation").

The Product's prospectus and the latest key information document, as well as the latest annual report and information on past performance, can be obtained free of charge from the website of the manufacturer: [www.dnca-investments.com](http://www.dnca-investments.com).

When this Product is used as a unit-linked carrier in a life insurance or capitalization contract, additional information on this contract, such as the costs of the contract, which are not included in the costs indicated in this document, the contract in the event of a claim and what happens in the event of default by the insurance company, are presented in the key information document for this contract, which must be provided by your insurer or broker or any other insurance intermediary in accordance with its legal obligation.
