AMUNDI FUNDS MULTI-ASSET SUSTAINABLE FUTURE - R EUR A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU1941682251

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

Seeks to increase the value of your investment over the recommended holding period, through investment in Sustainable Investments pursuant to Article 9 of the Disclosure Regulation. More precisely, the sustainable investment objective of the fund is to invest in economic activities that contribute to a Sustainable Future, addressing some of the global challenges in order to achieve sustainable growth.

The Sub-Fund invests mainly in a broad range of securities from around the world and which contribute to a sustainable future, as measured according to the environmental, social and governance challenges indicators. This may include (i) euro denominated investment grade bonds, across the full range of maturities, issued by governments of OECD countries or supranational entities and or corporate entities. At least 10% of the sub-fund's assets are invested in green, social and sustainable bonds, aiming to finance energy transition and social progress and that meet the criteria and guidelines of the Green Bond, Social Bonds and Sustainable Bonds Principles as published by the ICMA (ii) inflation linked bonds (iii) up to 10% of the sub-fund's assets in contingent convertible bonds and up to 40% of the sub-fund's assets in equities. Whilst the investment manager aims to invest in ESG Rated securities not all investments of the Sub-Fund will have an ESG rating and in any event such investments will not be more than 10% of the Sub-Fund.

The Sub-Fund aims for an improved environmental footprint and sustainability profile by integrating ESG (environmental, social and corporate governance) criteria.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Benchmark : The Sub-Fund is actively managed and uses the MSCI Daily Net Total Return World Euro Index (30%) Bloomberg EuroAgg Total Return Index Value Unhedged EUR Index (70%) Index a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee, as a benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction. The Sub-Fund has not designated the Benchmark as a reference benchmark for the purpose of the Disclosure Regulation.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The Sub-Fund integrates Sustainability Factors in its investment process. The sustainable investment objective is achieved by investing in companies and issuers, on both global equity and fixed income markets, which contribute to creating a positive long-term environmental or social contribution to a Sustainable Future. The selection of the securities results from a traditional financial analysis coupled with an extra-financial analysis aiming to assess the actual contribution and commitment to a sustainable future. The Sub-Fund applies supplemental and specific exclusion criteria on companies and public issuers on the basis of controversial activities and controversial behaviour. The Sub-Fund also excludes any company or issuer exhibiting an ESG rating lower than D, based on Amundi ESG rating scale and its proprietary Best-in-Class approach, aiming to retain only the best half of the initial universe within each sector. In addition for each issuer, the Sub-Fund uses sustainability indicators on environmental, social, governance and the UN's Global Compact Principles dimensions considered cumulatively. Besides, the fund invests at least 10% of its net assets in green, social and sustainable bonds, aiming to finance energy transition and social progress. Our investment approach relies on ESG criteria and rating identified and monitored by Amundi's ESG analysis team according a proprietary ESG analysis framework. The Sub-Fund's investable universe (as represented by the Benchmark) is reduced by a minimum of 20% due to exclusion of securities with a lower ESG rating. In determining the ESG score of the Sub-Fund and the reduced investable universe, ESG performance is assessed by comparing the average performance of a security against the security issuer's industry, in respect of each of the three ESG characteristics of environmental, social and governance. The selection of securities through the use of Amundi's ESG rating methodology and, the evaluation of their contribution to environmental or social objectives, aims to avoid adverse impacts of investment decisions on Sustainability Factors associated with the environmental and social nature of the Sub-Fund.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 4 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund reflects the risk of its allocation, which is mainly exposed to the bond market.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Conversion charge	1.00%
This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	
Charges taken from the Sub-Fund over a year	
Ongoing charges	0.93%
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	20.00% a year of any returns the Sub-Fund achieves above MSCI Daily Net Total Return World Euro Index (30%) Bloomberg EuroAgg Total Return Index Value Unhedged EUR Index (70%). Over the last accounting year, a performance fee of 0.15% was charged.

The **entry** and **conversion charges** shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the current year. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

The ongoing charges displayed are estimated. For each accounting period, the Sub-Fund's annual report will display the exact amount.

The calculation of the performance fee applies on each Net Asset Value calculation date in accordance with the terms and conditions described in the prospectus.

The comparison of the Net Asset Value of the share class and the Reference Asset (as defined in the prospectus) is carried out over an observation period of maximum five years. The performance fee represents the adjacent percentage of the difference between the net assets of the share Class (before deduction of the performance fee) and the Reference Asset if the difference is positive, and if the relative performance of the share class compared to the Reference Asset is positive or nil, since the beginning of the performance observation period. Past underperformances over the last 5 years should be clawed back before any new accrual of performance fee.

The anniversary date corresponds to the day of the last Net Asset Value of the month of June.

Performance fee accruals will be paid to the Management Company on an anniversary date and a new observation period starts.

The performance fee is not paid to the Management Company if the performance of the share class over the performance observation period is negative, while remaining higher than the performance of the Reference Asset.

For more information about charges, please see charges paragraph of the prospectus of the UCITS, which is available at: www.amundi.com.
