

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Robeco Smart Energy D EUR (LU2145461757)

This fund is a subfund of Robeco Capital Growth Funds, SICAV.

Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

Robeco Smart Energy is an actively managed fund that invests globally in companies providing technologies for clean energy production, distribution, power management infrastructure and energy efficiency. The selection of these stocks is based on fundamental analysis. The fund's objective is to achieve a better return than the index. The fund has sustainable investment as its objective, within the meaning of Article 9 of the Regulation (EU) 2019/2088 of 27 November 2019 on Sustainability-related disclosures in the financial sector. The fund's objective is also to achieve a better return than the index. The strategy integrates sustainability criteria as part of the stock selection process and through a theme-specific sustainability assessment. The portfolio is built on the basis of an eligible investment universe that includes companies whose business models contribute to the thematic investment objectives. The assessment regarding relevant SDGs uses an internally developed framework, more information on which can be obtained at www.robeco.com/si.

The fund has sustainable investment as its objective within the meaning of Article 9 of the European Sustainable Finance Disclosure Regulation. The fund furthers the decarbonization of the global energy sector through investments in clean energy sources, energy efficient products and infrastructure and by the electrification of the industrial, transportation and heating sectors. This is done by investing in companies that advance the following UN Sustainable Development Goals (UN SDGs): Affordable and Clean Energy goal, Decent work and economic growth, Industry, innovation and infrastructure, Sustainable cities and communities, and Climate action.

The fund integrates ESG (Environmental, Social and Governance) factors in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to normative, activity-based and region-based exclusions, carbon reduction target and proxy voting.

The fund can engage in currency hedging transactions. Typically currency hedging is not applied.

Benchmark: MSCI World Index (Net Return, EUR)

The benchmark is a broad market weighted index that is not consistent with the sustainable objective of the Sub-fund. The Sub-fund will use the Custom Bloomberg Climate Transition Benchmark to monitor the carbon profile of the Sub-fund. The Custom Bloomberg Climate Transition Benchmark is consistent with the low carbon sustainable investment objective of the Sub-fund. It differs from a broad market index in that the latter does not take into account in its methodology any criteria for alignment with the Paris Agreement on greenhouse gas emission reduction and related exclusions.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Lower risk - Typically lower rewards

Higher risk - Typically higher rewards

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment.

Equity theme funds have a view on a specific segment of the equity market. By making the choice to focus on a specific segment the fund becomes more volatile as price movements of shares within this theme tend to have a larger impact on the value of the fund. The fund may use financial derivatives.

The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets. Investors may face significant difficulties in terms of time or costs for disinvesting subject to specific market conditions.
- The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

Charges

One-off charges taken before or after you invest

Entry charge*	5.00%
Switch charge	1.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charges	1.72%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.

*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2024. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: www.robeco.com

Past performance

Changes

This share class shows performance information prior to its launch date. On the launch date of this share class, the fund absorbed Multipartner SICAV - Robeco Smart Energy Fund. Performance prior to the launch date has been simulated on the basis of the past performance of the absorbed fund that had similar investment policy and applied higher or comparable charges.

Currency: EUR

1st quotation date: 29-10-2020

Past performance is of limited value as a guide to future performance. The ongoing charges are included in the calculation of past performance; excluded are the entry and exit charge.

Practical information

- The depositary of the SICAV is J.P. Morgan SE.
