Ce document a été publié le 01/01/2025.

What is this product?

Type: Shares of a compartment of CPR Invest, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the compartment is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectifs: The Compartment's objective is to outperform global equity markets over a long period (minimum of five years) by investing in international equities of companies involved in any part of the hydrogen economy.

Hydrogen and its derivatives offer a low-carbon alternative to the fossil fuels used in industry and transportation. However, the current production of hydrogen is essentially based on a process that emits greenhouse gases. The Compartment therefore supports not only the development of hydrogen use in industry and transportation, but also the decarbonization of its production through carbon capture and the development of low-emission production methods. The latter include electrolysis, which is still at an early stage of development, as well as pyrolysis and the exploitation of geological deposits, which are still under study.

Generally speaking, the hydrogen economy is still early stage. It is therefore rarely significant in companies' accounts. The Compartment invests across the entire hydrogen value chain, from production to use, including storage, transport and distribution infrastructures.

The Compartment's sustainable investment is focused on tackling climate change and aims to obtain a lower carbon intensity than its investment universe by selecting investments as described below. The Compartment integrates sustainability Factors in its investment process as outlined in more detail in section 4.9 "Overview of the Responsible Investment Policy" of the Prospectus.

The Management Company's approach is to limit the Compartment's investment universe to a set of stocks whose eligibility has been scrupulously determined through quantitative and/or qualitative (participation in projects) indicators. This universe is filtered through general extra-financial exclusion criteria (controversies, ESG rating) and sub-criteria linked to the theme and its objectives (carbon emissions, water management, health and safety, local communities and human rights).

The portfolio is built with 2 ambitions:

- 1) support the coordinated development of the entire industry;
- 2) pay particular attention to the "pure" players in our universe.

The portfolio construction is based on 4 pillars of the value chain:

1. Clean Power: This pillar brings together developers of renewable and decarbonized (nuclear) energies. It will represent a maximum exposure of 30% of the portfolio. However, as this represents only indirect exposure to the sector, we limit our exposure to it.
2. Tech & Components: this pillar includes manufacturers of critical equipment for hydrogen production;
3. Production, storage, transport and distribution;
4. Users

Finally, the Management Company aims at measuring the amount of carbon avoided. Unfortunately, such a measurement comes up against methodological limitations. The information is not available. The players in the development of this sector are industrial companies. This gives the Compartment's investment universe a higher carbon intensity than the MSCI ACWI index.

The sustainable construction of the investment universe is further improved by excluding companies based on the Management Company's ESG approach (using environmental, social and governance criteria) :

- worst overall ESG scores ;
- worst scores for specific E, S and G criteria considered relevant to the hydrogen economy ;
- high ESG controversies.

At least 90% of portfolio stocks have an ESG score. The Management Company undertakes to ensure that the Compartment's ESG score is higher than the investment universe's ESG score after excluding at least 20% of stocks with the worst scores according to the ESG approach.

The Compartment is invested for at least 75% of its assets in equity and equity equivalent securities of any country without constraints of capitalisation.

Among this proportion of 75% of its assets, the Compartment may invest in China A shares via Stock Connect within a maximum of 25% of its assets.

Derivatives instruments may be used by the Compartment for hedging, arbitrage, exposure purposes and/or efficient portfolio management.

The Compartment is actively managed. The Compartment may use a Benchmark a posteriori as an indicator for assessing the Compartment's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction.

The Compartment is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the CPR Invest prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

More Information: You may get further information about the compartment, including the prospectus, and financial reports which are available at and free of charge on request from: CPR Asset Management at 91-93, boulevard Pasteur – CS 61595 – 75730 Paris Cedex 15.

The Net Asset Value of the compartment is available on www.cpram.com

Dépositaire : CACEIS Bank, Luxembourg Branch.

What are the risks and what could I get in return?

INDICATEUR DE RISQUE

Risque le plus faible

Risque le plus élevé

The risk indicator assumes you keep the product for 5 ans.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the CPR Invest prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the compartiment over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period : 5 ans			
Investissement 10 000 EUR			
Scénarios		Si vous sortez après	
		1 an	5 ans
Minimum	Il n'existe aucun rendement minimal garanti. Vous pourriez perdre tout ou une partie de votre investissement.		
Scénario de tensions	Ce que vous pourriez obtenir après déduction des coûts	€1 490	€1 490
	Rendement annuel moyen	-85,1%	-31,7%
Scénario défavorable	Ce que vous pourriez obtenir après déduction des coûts	€8 380	€9 600
	Rendement annuel moyen	-16,2%	-0,8%
Scénario intermédiaire	Ce que vous pourriez obtenir après déduction des coûts	€9 970	€13 120
	Rendement annuel moyen	-0,3%	5,6%
Scénario favorable	Ce que vous pourriez obtenir après déduction des coûts	€13 420	€16 040
	Rendement annuel moyen	34,2%	9,9%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

This type of scenario occurred for an investment using a suitable proxy.

Favourable scenario: this type of scenario occurred for an investment between 31/10/2016 and 29/10/2021.

Moderate scenario: this type of scenario occurred for an investment between 30/04/2018 and 28/04/2023

Unfavourable scenario: this type of scenario occurred for an investment between 31/03/2015 and 31/03/2020 .

What happens if CPR Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of CPR Invest. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

Que va me coûter cet investissement?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COÛTS AU FIL DU TEMPS

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

Investissement 10 000 EUR

Scénarios	Si vous sortez après	
	1 an	5 ans*
Coûts totaux	€705	€1 985
Incidence des coûts annuels**	7,2%	3,4%

* Période de détention recommandée.

** This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8,98% before costs and 5,58% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (5,00% of amount invested / 500 EUR). This person will inform you of the actual distribution fee.

If you are invested in this product as part of an insurance contract, the costs shown do not include additional costs that you could potentially bear.

COMPOSITION DES COÛTS

Coûts ponctuels d'entrée ou de sortie		Si vous sortez après 1 an
Coûts d'entrée	This includes distribution costs of 5,00% of amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 500 EUR
Coûts de sortie	We do not charge an exit fee for this product, but the person selling you the product may do so.	0,00 EUR
Coûts récurrents prélevés chaque année		
Frais de gestion et autres coûts administratifs ou d'exploitation	1,85% of the value of your investment per year. This percentage is based on actual costs over the last year.	175,85 EUR
Coûts de transaction	de 0,32% of the value of your investment per year. This is an estimate of the cost of buying and selling the underlying investments for the product. The actual amount depends on how much we buy and sell.	30,12 EUR
Coûts accessoires prélevés sous certaines conditions spécifiques		
Commissions de performance	15,00% annual outperformance of the reference asset 15% of the difference between the net assets of the Share Class and the Reference Asset. Performance indicator : MSCI ACWI in USD. ESMA methodology since 01/01/2022. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last 5 years should be clawed back before any new accrual of performance fee. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. La commission de surperformance est perçue même si la performance de la part sur la période d'observation est négative, tout en restant supérieure à la performance de l'actif de référence.	0,00 EUR

Combien de temps dois-je le conserver, et puis-je retirer de l'argent de façon anticipée?

Recommended holding period: 5 ans is based on our assessment of the risk and reward characteristics and costs of the compartiment.

This product is designed for medium-term investment; you should be prepared to stay invested for at least 5 years. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Orders to redeem shares must be received before 14:00 (heure de Paris) Luxembourg time on the Valuation Day. Please refer to the CPR Invest Prospectus for further details regarding redemptions.

You may exchange shares of the Sub-Fund for shares of other sub-funds of CPR Invest in accordance with the CPR Invest prospectus.

Comment puis-je formuler une réclamation?

Si vous avez des réclamations, vous pouvez :

- Envoyer un courrier à CPR Asset Management au 91-93 boulevard Pasteur, 75015 Paris - France
- Envoyer un e-mail à client.servicing@cpram.com

Dans le cas d'une réclamation, vous devez indiquer clairement vos coordonnées (nom, adresse, numéro de téléphone ou adresse e-mail) et fournir une brève explication de votre réclamation. Vous trouverez davantage d'informations sur notre site Internet www.cpram.com.

Si vous avez une réclamation au sujet de la personne qui vous a conseillé ce produit, ou qui vous l'a vendu, vous devez vous rapprocher d'elle pour obtenir toutes les informations concernant la démarche à suivre pour faire une réclamation.
